SID'S FARM

For All Kinds of Weightlifters

Every Indian household is home to someone quietly building something.

A child building height and focus.
A parent building strength.
A teen building stamina for exams.
A woman building resilience through the chaos of her day.

Protein isn't just for the gym.
It's for everyday strength.
It's for people who lift more than just weights.

And now, getting enough protein is as simple as drinking your milk.

25G

Modi, Muizzu signal major reset in bilateral relations

PM highlights support for 'time-tested' friendship between India and the Maldives; President of island nation stresses territorial safeguards, but acknowledges foreign support in key sectors

Meera Srinivasan
MALE

Guest of honour: Prime Minister Narendra Modi with Maldivian President Mohamed Muizzu on his left during the 60th Independence Day celebrations of the Maldives in Male on Saturday. PTI

India is looking forward to deepening its ties with the Maldives across multiple sectors, Prime Minister Narendra Modi said on Saturday, highlighting the "bipartisan support" within the island nation for the "strong and time-tested" friendship.

Mr. Modi, who was in the Maldives on a two-day state visit, held talks with top Maldivian leaders across the political spectrum, including Vice-President Uz. Hussain Mohamed Latheef, parliamentary Speaker Abdul Raheem Abdulla, former President Mohamed Nasheed, and key members of the Opposition. He also attended the island nation's 60th Independence Day event at the Republic Square in its capital, Male.

Mr. Modi's visit marks a major reset in bilateral ties that had soured after Maldivian President Mohamed Muizzu came to power in 2023, campaigning mostly on an 'India [military] out' plank.

While "every square inch" of Maldivian territory will be safeguarded by its citizens, the country needs other nations for "certain resources and technical expertise", Mr. Muizzu said on Saturday, appearing to be alluding to the country's revived partnership with India in key sectors. He was addressing the Maldives National Defence Force and the Maldives Police Service on the country's Independence Day, seeking to balance the Maldives's sovereignty with its need for external support, especially to cope with economic pressures.

I feel sorry to be backing Bihar govt., says Chirag Paswan

Amarnath Tewary
PATNA

Chirag Paswan

In the wake of the gang-rape of a Bihar Military Police aspirant in Bodh Gaya on Thursday, and the recent spate of violent crimes in the State ahead of the Assembly election due in October-November, Union Minister and Lok Janshakti Party (Ram Vilas) leader Chirag Paswan on Saturday said the situation in the State "was scary" and that he was sorry for supporting the Nitish Kumar-led government.

"I feel sorry to be supporting the government in Bihar, which is failing on the law and order front like this," he said.

"The administration has totally bowed down before criminals. This incident [the gang-rape in Bodh Gaya] deserves condemnation, but why are such incidents happening? There is a series of crimes, and if it continues like this, the situation will become frightening or is already so," Mr. Paswan said, adding "crime has become uncontrolled" in Bihar.

The Hajipur MP accused the government led by the Janata Dal(U), a member of the National Democratic Alliance, of "either trying to hush up the situation or being unable to handle it any more". "If it is said that this is happening because of election, I can say it might possibly be so, and it might be a conspiracy to defame the government, even then, it's the responsibility of the administration to control it. How are criminals getting away, " he asked.

2 held in Bihar over rape of police aspirant in ambulance

The Hindu Bureau
PATNA

An ambulance driver and a technician were arrested on Friday for raping a Bihar Military Police aspirant in an ambulance in Bodh Gaya.

The woman, who had fainted during the recruitment's physical test on Thursday, alleged that she was gang-raped by three to four persons on her way to a hospital.

She said she became aware of the sexual assault after regaining consciousness. The woman is undergoing treatment at a hospital.

Police said Vinay Kumar, the driver, and Ajit Kumar were arrested within two hours after the complaint was filed.

A Special Investigation Team was formed after the FIR was registered, Senior Superintendent of Police, Gaya, Anand Kumar told presspersons. "The team monitored CCTV footage and other technical surveillance. Investigation is on," he said.

Man hammers his 3 nephews; two dead, one is critical

The Hindu Bureau
BENGALURU

In a shocking incident, a 25-year-old man, said to be mentally disturbed, hammered his three nephews, all below 10 years, killing two of them and leaving another critically injured and battling for his life, in Hebbagodi on Saturday afternoon.

The deceased have been identified as Ishaq, 8, and Junaid, 6, while Roshan, 5, is critical and is being treated at a private hospital, sources said. The police have arrested the accused Kasim Pasha, 25, who was unemployed and is said to have mental health issues.

The family hails from Yadgir and had migrated to the city in search of work. The boys' father Chand Pasha works as a construction labourer, while his wife Rehana works in a garments factory. The couple and their three children lived with Chand Pasha's mother and younger brother Kasim.

The incident occurred on Saturday afternoon when Chand Pasha had gone to work and Rehana was at the bank.

Kasim Pasha reportedly barged into the house and locked the door from inside and allegedly assaulted the children with a hammer and an iron rod after stuffing their mouths with a cloth. Hearing the commotion, the boys' grandmother and neighbours rushed to the spot and forced open the door to find the three children in a pool of blood.

Bihar SIR to restore trust in poll rolls: EC

Sreeparna Chakrabarty
NEW DELHI

Defending its decision to conduct a special intensive revision (SIR) of Bihar's electoral rolls in the Supreme Court, the Election Commission of India (EC) has pointed to the numerous complaints made by political parties about the inaccuracy of voter lists.

"[I]n response, and to restore public confidence in the integrity of the electoral roll, the Commission has initiated the SIR," it told the court in a counter-affidavit filed on July 21.

The Commission even submitted copies of these complaints in an annexure to the affidavit, running into 625 pages.

On Monday, the Supreme Court will hear petitions filed by Opposition parties and activists challenging the SIR. The first phase of the process ended on Friday, with around 66 lakh names potentially being struck off the State's draft electoral roll.

'Reports on officials, religion land journalists in trouble'

Vijaita Singh
NEW DELHI

Reporting on public officials, religious matters, and protests were the three most common reasons for which a journalist in India faced criminal charges, a study, co-authored by the National Law University (NLU), Delhi, has found.

The study said that journalists from small cities and towns, or those who reported for local publications, in Hindi or other regional languages, were most impacted, and their cases often did not receive national or international media attention.

The other two authors of the report are TrialWatch, an initiative of the Clooney Foundation for Justice, and Human Rights Institute at Columbia Law School.

Reported charges

A study finds that a journalist's encounters with the justice system varied by location

- 24% of incidents recorded in metropolises resulted in arrest of journalists, while the number rose to 58% in small cities/towns
- 65% of the incidents in big cities saw journalists get interim protection from arrest, but the figure dropped to 3% in smaller towns

United voices: Presspersons protest against arrest of journalists in Mumbai. FILE PHOTO

- At least 40% of the journalists covered in the dataset were arrested

Detailed numbers

The report, "Pressing charges: a study of criminal cases against journalists across States in India", was based on an analysis of 423 criminal cases registered against 427 journalists covering a total of 624 incidents of "criminalisation of journalists" in relation to their work from 2012 to 2022. At least 40% of the journalists covered in the dataset were arrested, the study found.

"Our dataset revealed that reporting on public officials was the most common reason journalists faced charges, the basis for charges in 147 incidents. The second most common reason was for reporting on religious matters – 99 times, while the third most common was reporting on protests – 79 times," the report said. Significantly, in over 100 incidents, the charges related to the reporters' alleged conduct while reporting, instead of what they were reporting on, the report showed.

One-stop shopping complex: In the Meitei language, the market is known as Nupi Keithel (Women's Market) and also as Ima Keithel, which translates to Mothers' Market.

Staying up-to-date: A vendor catches up with news in her spare time. Hosting stalls for several generations, the women's market is a home away from home for many vendors.

The right pitch: A vendor shows bangles to a customer at her stall. The stalls offer a variety of products such as vegetables, fruits, textiles, toys, fish, spices, and utensils.

Cool-off point: A vendor sells ice cream at the buzzling Ima Market in the heart of Imphal. The market hosts 5,000-6,000 stalls and serves as a generational bridge.

Women's business

Ima Market in Manipur's capital Imphal is entirely run by women and hosts 5,000-6,000 vendors, who sell a variety of products catering to needs of the local people as well as tourists; the market stands testimony to the empowerment of women in the State and the socio-economic role they play

Ritu Raj Konwar
rituraj.k@thehindu.co.in

The Ima Market located in the centre of Manipur capital's Imphal is a market entirely run by women. Known as Ima Keithel (Mothers' Market) in the Meitei language or as Nupi Keithel (Women's Market), the bustling hub consists of three large buildings with pagoda-style roofs. It is a commercial centre as well as a popular tourist attraction. It was established in the 16th century and hosts 5,000-6,000 women vendors, who sell a variety of products such as vegetables, fruits, textiles, toys, fish, spices, and utensils.

Male shopkeepers and vendors are not allowed to set up or run stalls in the market and the State government has made it a punishable offence.

Vendors at the market, dressed in traditional *phaneks* (long skirts tightly draped around the waist) and *innaphis* (shoulder drapes very similar to shawls), get ready every morning to welcome shoppers, many of them tourists. The economic backbone of many families, the market has served to empower women at the socio-economic level.

Women in Manipur enjoy a unique status in society. Their empowerment is visible through their active participation in the economic realm.

External Affairs Minister S. Jaishankar, who visited the market in November 2022, in a post on X, had lauded the market for being "a great example of Nari Shakti (women's strength) powering economic growth".

Women from diverse faiths and tribes run their own stalls with pride and purpose.

"All of us come together and actively participate when it comes to issues concerning Manipur as a whole. We are not only contributing to the State's economy and supporting our families financially, but we also take part in important social and political matters. This involvement is not limited to just one district – women from all districts and communities, including Muslims and tribal groups, come together. They bring their local products to this market, sell them to us at wholesale rates, and we, in turn, sell those items. It's a wonderful and effective system," a vendor told ANI last July.

"We want to bring peace. We all want to live together in harmony. Whether it's the Tangkhul, Naga, Kuki, or any other tribe in Manipur, we all wish to come together, work together, and live with love and unity," said another vendor.

(With ANI inputs)

Money makes money: Women running a money exchange business at the market.

Daily PRO+

Turns out most Indians struggle to get enough protein in their daily diet.
Our Daily Pro+ Series helps you with just that.
Clean, natural high-protein dairy that fits right into your daily routine, with zero effort or diet changes.

3 Eggs

5 Cups of Dal

=

2 Serves of Paneer (100gm)

1 Scoop of Whey

FOR REAL PEOPLE WITH REAL DAYS

For that vegetarian who is still pretending that tofu tastes good.

For those Desi moms who don't believe in powders for protein.

For that parent juggling lunchboxes, work calls and bedtime stories.

For that teen who wants to look fit, but also cool.

For that new mom whose breaks last just as long as her toddler's naps.

For that working professional with a growling stomach and a full inbox.

For that gym-goer whose protein shaker leaks more than it mixes.

For that grandparent whose favourite workout is lifting their grandchild.

AND FOR EVERYONE IN BETWEEN.

Protein isn't just for bodybuilders.
It's for everyone - Every day.

Just real milk, made more powerful.

MADE FROM
pure, safe, tested milk with
No Antibiotics
No Preservatives
No Induced Hormones

Continued on Page 4

Bait for buyers: Vendors sell dry fish at the Ima Market. Dry fish is a key part of Manipuri cuisine used in many of beloved dishes.

Break time: An elderly woman takes a breather. Women from diverse faiths and tribes run their own stalls with pride and purpose at the market.

Letting her hair down: Two vendors take a break from business and relax. Women at the market unwind by sharing stories and anecdotes.

Tea time: As dusk falls, eateries and snack outlets come to life as they get busy to welcome customers with lip-smacking delicacies.

Who's next?: A woman clears the table at her eatery, which serves dishes made with rice.

Goodies to take home: Customers laden with purchases and provisions after a round of shopping.

SWR upgrades 835 km track; over 1 hr of travel time saved

South Western Railway operates around 400 passenger trains daily. Apart from these trains, the speed enhancements have been implemented in freight operations

Darshan Devaiah B.P.
BENGALURU

To enhance operational efficiency and reduce transit time, South Western Railway (SWR) has been implementing a comprehensive speed enhancement programme across its network. SWR has enhanced speeds across 835 kilometres of its network in the financial year 2024-25, resulting in a cumulative time saving of over 60 minutes.

South Western Railway has enhanced speeds across 835 km of its network in the financial year 2024–25, resulting in a cumulative time saving of over 60 minutes.

According to officials, the initiative includes increasing speeds on loop lines and raising the Maximum Permissible Sectional Speed (MPS) on key routes, benefiting both goods and passenger movement.

A senior SWR official said that the ongoing infrastructure push covering the Bengaluru, Hubballi, and Mysuru divisions was already showing measurable results.

"Not only are passenger journeys becoming faster and more punctual, but goods trains also are moving more swiftly across the zone, contributing to improved logistics and economic growth," official said. During the financial year 2024-25, loop line speeds at 15 stations covering 19 loops were increased to 30 kmph. These improvements have saved a cumulative 45 minutes of train delays across the zone. Hubballi Division took the lead, upgrading 10 stations and 12 loop lines.

Loop lines

"Increasing the loop line speeds has helped clear bottlenecks in station yards and ensured quicker crossover of trains from main lines. This plays a vital role in reducing sectional delays and improving punctuality," official explained.

In 2025-26, with Hubballi Division further upgrading five loop lines at four stations, resulting in an additional 12 minutes saved so far this fiscal. In FY 2024-25 alone, SWR upgraded 835 route kilometres, saving more than 60 minutes in total travel time. The Bengaluru Division accounted for 591 km of this upgrade, clocking 41 minutes of time saving.

17-min saved

"Key improvements included increasing line speeds from 110 kmph to 130 kmph over 281 km and from 100 kmph to 110 kmph over 495 km. This has enabled faster through-running of trains, improved slot utilisation, and better alignment with national speed standards. In the current financial year up to July 22, 2025, we have already upgraded 135 km of track mostly in the Mysuru Division resulting in 17 minutes of time savings. Tracks upgraded include sections where speed was increased from 70 kmph to 80 kmph," an official said.

The South Western Railway operates around 400 passenger trains daily across its network, covering 3,692 route km and 384 stations.

"Faster average speeds and reduced time at loop lines allow trains to run closer to their scheduled times. We have already seeing improved punctuality and reduced congestion," the official added.

Apart from passenger trains, the speed enhancements have been implemented in freight operations.

"We are seeing improved competitiveness in rail freight, which is crucial for industrial corridors and economic zones served by our network," the official said.

BJP opposes splitting BBMP into five corporations; announces legal fight

The Hindu Bureau
BENGALURU

The Bharatiya Janata Party (BJP) on Saturday launched a scathing attack on the State government for its move to split the Bruhat Bengaluru Mahanagara Palike (BBMP) into five corporations, calling it "unscientific" and a repeat of a "failed experiment" in other cities, and said BJP will fight it out legally.

Leader of Opposition in the Legislative Assembly R. Ashok alleged that the Congress government had divided Bengaluru to suit its electoral motives in the BBMP elections.

Congress is certain to lose the BBMP elections, and this division is an attempt to avoid that defeat, he alleged.

"This division will lead to disparities among the five civic bodies. The BJP will take the matter to court and protest against it," he said.

BJP State president B.Y. Vijayendra termed the split "unscientific". "Such experiments have already been done in other cities like Mumbai and Delhi. In Delhi the split was reversed after it failed. We do not understand why the Congress government in the State is trying to repeat a failed experiment," he said.

Mr. Vijayendra also termed the tunnel roads project as "unscientific" too. Mr. Ashok said that the tunnel roads project was being awarded to blacklisted contractors. The toll on these tunnel roads will make them accessible only to the wealthy, offering no benefit to the common man. While the BJP supports development, it will oppose projects meant for looting money," he said.

SwaraMalhar music event scheduled for August 2

Sapthak Bangalore will host *SwaraMalhar*, a music programme, on August 2 at Pathi Sabhangana in Sri Ramamandiram Trust, Narasimharaja Colony.

The event will begin at 5 p.m. with a violin concert by Tejas and Rajas Upadhye. This will be followed by a santoor recital by Rahul Sharma, accompanied by Ojas Adhiya on the tabla. The programme will conclude with a vocal concert by Anand Bhate, joined by Bharat Kamat on the tabla and Suyog Kundalkar on the harmonium.

259 students conferred degrees at RVITM Graduation Day

The Hindu Bureau
BENGALURU

R.V. Institute of Technology and Management (RVITM) celebrated its third Graduation Day on Saturday at Samskruthi Brindavana Convention Centre, J.P. Nagar.

A total of 259 students from the Computer Science, Electronics and Communication, Information Science, and Mechanical Engineering departments were conferred degrees. M.V. Satish, former Board Member, L&T, was the chief guest.

Principal Nagashettappa Biradar urged the graduates to embrace lifelong learning, resilience and values.

While vice-principal Manjunatha Prasad R. announced academic achievers. Highlights included Navyashree Ganipsetty (ECE), who secured VTU 1st Rank with a CGPA of 9.78, and Raksha Umashankar (CSE), who earned VTU 5th Rank with a CGPA of 9.73.

Varsity's 2025-26 non-technical programmes inaugurated

The Hindu Bureau
BENGALURU

REVA University inaugurated its 2025-26 non-technical programmes with a ceremony recently. Industry leaders Arihant Jain, CEO, WLDD Pvt. Ltd. and Jeet Marwadi, Founder, 1 Finance, addressed the students.

Mr. Jain urged students to embrace real-world experiences, internships, and personal branding in the AI era. Mr. Marwadi emphasised introspection, mindful learning, and strong networks for entrepreneurial growth.

P. Shyama Raju, Chancellor of REVA University, reinforced the university's 'Educate to Enterprise' vision.

The CAT 2025 advertisement has been published in several newspapers in multiple languages across the country, however the information contained in the CAT website shall be considered as final.

INDIAN INSTITUTES OF MANAGEMENT (IIMs)
Ahmedabad, Amritsar, Bangalore, Bodh Gaya, Calcutta, Indore, Jammu, Kashipur, Kozhikode, Lucknow, Mumbai, Nagpur, Raipur, Ranchi, Rohtak, Sambalpur, Shillong, Sirmaur, Tiruchirappalli, Udaipur, Visakhapatnam

COMMON ADMISSION TEST
CAT 2025

The Indian Institutes of Management will conduct a computer-based Common Admission Test 2025 (CAT 2025) on **November 30, 2025** in **three** sessions. Detailed information on CAT 2025 may be obtained from the CAT website.

CAT website: https://iimcat.ac.in

CAT 2025 is a prerequisite for admission to various Post Graduate and Fellow/Doctorate programmes of IIMs. CAT 2025 scores are allowed to be used by listed non-IIM member institutions. A list of such institutions is provided on the CAT website. IIMs have no role in the selection process of non-IIM institutions.

CAT 2025 ELIGIBILITY

Please refer to the detailed notification on the CAT website. **Applicants should note that mere fulfillment of the minimum eligibility criteria will not ensure consideration for shortlisting by IIMs.**

RESERVATIONS

Refer to the CAT website for information regarding reservation of seats for various categories of applicants. **No change in the category will be entertained after CAT registration.**

REGISTRATION FEES

₹1300 for SC, ST and PwD category candidates.
₹2600 for all other categories of candidates.
Please note that a candidate needs to pay the registration fees only once, irrespective of the number of institutes he/she is applying for. Fees once paid cannot be refunded under any circumstances.

IMPORTANT DATES

Registration opens	: August 01, 2025 (10:00 am)
Registration closes	: September 13, 2025 (5:00 pm)
Admit card download	: November 05-November 30, 2025
Test date	: November 30, 2025
Result declaration	: First week of January, 2026 (Tentative)

TEST CENTRES

CAT will be conducted in test centres spread across around 170 test cities. Candidates will be given the option to select any five test cities in order of their preference. The list of cities may be subject to changes based on the discretion of the CAT authorities.

DISCLAIMER

This advertisement is only intended to be an announcement for CAT 2025. For detailed information, rules and procedures regarding CAT and the admission process of various IIMs and other updates, candidates should visit the CAT website.

Any dispute concerning CAT 2025 would be subject to the jurisdiction of the competent Courts within the territorial jurisdiction of the city of Kozhikode only.

IMPORTANT

Candidates must declare and maintain a valid and unique email account and a mobile phone number throughout the selection process.

IRR project revamps city's busiest corridor with mobility improvements

Prior to intervention, the Inner Ring Road was plagued with congestion, missing footpaths, unlit stretches, poorly maintained storm-water drains, and inadequate bus frequency, according to B.PAC report

The Hindu Bureau
BENGALURU

The Bangalore Political Action Committee (B.PAC) on Saturday unveiled the final report of the 'IRR Street: Standstill to Active' project, showcasing over two years of transformative interventions on the 7.5-km stretch of Bengaluru's Inner Ring Road (IRR), between Indiranagar KFC Junction and Madiwala Masjid in Koramangala. The transformation is part of a sustained citizen-government collaboration.

The report, released by BBMP Chief Commissioner M. Maheshwar Rao, documents a series of critical changes aimed at easing traffic, enhancing pedestrian safety, improving bus services, and reclaiming public spaces along the congested corridor that connects neighbourhoods such as Domlur, Ejipura, Koramangala, and Indiranagar. "This initiative is much appreciated as it involved all key stakeholders. Walkability is the future of mobility in cities. The BBMP is committed to supporting more such efforts across Bengaluru," Mr. Rao said.

Inner Ring Road transformation

Area	Transformation
Bus services	MF-5 fleet increased from 17 to 26 buses; daily trips rose from 169 (in Nov. 2023) to 227 (in July 2025)
Crash blackspot fixes	Fatal crashes dropped to zero (Nov. 2024 – Jan. 2025); 6 blackspots improved with rumble strips, HRPCs, and signage
Pedestrian safety	Over 4,300 tonnes of debris, 129 tonnes of garbage, and 130 barricades cleared from footpaths; Domlur flyover pedestrian interventions approved
Street lighting	45+ new or repaired street lights installed; major dark zones along corridor lit
Drainage & flooding	Kerb inlets recommended every 5–7 m; clogged inlets cleaned; warning tapes and temporary safety measures installed
Traffic improvements	Zebra crossings, pedestrian signals, and refuge islands proposed at major junctions like Ejipura and Sony World

Source: IRR Street: Standstill to Active Report | B.PAC

Peak-hour gridlocks

According to the report, prior to intervention, the IRR corridor was plagued with congestion, missing footpaths, unlit stretches, poorly maintained storm-water drains, and inadequate bus frequency. A traffic analysis by B.PAC showed peak-hour gridlocks extending up to 2.6 km, with over 24 congestion alerts daily. The road also suffered from five fatal crashes in 2023.

"Between June 2023 and July 2025, B.PAC's B. MOBILE team coordinated with the BBMP, BMTC, Bengaluru Traffic Police (BTP), and BSWML. Their methodology involved on-ground audits, data collection, and impact-based implementation. This report is not just about fixing one street it's a replicable model for urban mobility reform," said Revathy Ashok, B.PAC's Honorary CEO and Managing Trustee.

Bus services

The report states that the key transformations on the corridor include bus service enhancements where the BMTC's MF-5 fleet, running from SMVT to Silk Board, was ramped up from 17 to 26 buses, with daily trips rising from 169 to 227. In another initiative the road safety and crash blackspot fixes, six previously fatal junctions, including the TVS Showroom and Hero Honda Bus Stop, were transformed with raised pedestrian crossings, rumble strips, hazard boards, and warning signage. As a result, the number of fatalities dropped to zero between November 2024 and January 2025.

Further under the initiative over 4,300 tonnes of construction debris, 130 barricades, and 129 tonnes of garbage were cleared from the footpaths and medians. The BBMP electrified or added 45 new street lights, reducing dark zones that had previously made walking at night dangerous, especially for women and children. Flood-prone areas like Sony World Junction and Domlur saw the construction of shoulder drains with kerb inlets recommended every 5 to 7 m. While several inlets remained clogged, the BBMP was pushed to improve maintenance practices and install visible warning signage at open drains, the report states.

Kalasipalya bus terminal renamed after philanthropist

The Hindu Bureau
BENGALURU

The bus terminal was renamed after 'Janopakari' Doddanna Shettar on Saturday. SUDHAKARA JAIN

The State government has renamed the newly constructed Bengaluru Metropolitan Transport Corporation (BMTC) bus terminal at Kalasipalya in the heart of Bengaluru as Janopakari Sri Doddanna Shettar Kalasipalya Bus Station, after the noted philanthropist.

Philanthropist Doddanna Shettar established the Sri Lakshmi Narasimhaswamy (SLN) Charitable Trust in 1906 in the adjacent area of Kalasipalya bus terminal, with the vision of providing equal education to all, regardless of caste or social status. He set up several schools and colleges.

In recognition of his contributions to society, the then Maharaja of Mysuru, Nalwadi Krishnaraja Wadiyar, had honoured him with the title 'Janopakari'.

Charitable trust

The charitable trust continues to provide free education, food, accommodation, scholarships to students of all communities, and monthly widow pensions. Acknowledging the invaluable service rendered by Doddanna Shettar, the BMTC has decided to rename the Kalasipalya bus station as Janopakari Sri Doddanna Shettara Kalasipalya Bus Station, said Transport Minister Ramalinga Reddy, who unveiled the new signboard on Saturday. The new state-of-the-art terminal was inaugurated for public use on March 10, 2023.

Police rescue man kidnapped by female friend

The Hindu Bureau
BENGALURU

The Ashoknagar police recently cracked a kidnapping case and rescued a 37-year-old manager of a private company who was allegedly kidnapped by his female friend and her associates demanding ransom.

The police managed to arrest four of the accused identified as Mohammed Asif Risaldar, 42, Mohammed Sohail Sheikh, 25, both from R.T. Nagar; Salman Pasha, 22, from D.J. Halli; and Mohammed Nawaz, 27, from K.G. Halli, on Saturday.

The female friend of the victim identified as Mahima Vat, who is the prime accused in the case along with her three associates, is on the run. Efforts are on to track them down, Deputy Commissioner of Police (Central Division) Hakay Akshay Machhindra, said on Saturday.

According to the police, the victim, identified as Lawrence Melwin, worked as a manager at a Dubai-based travel company and had come to Bengaluru on a vacation and stayed at his parents' house before checking into a hotel on Residency Road.

The incident came to light when the victim's mother Leena Antony filed a complaint on July 16, claiming that her son, who was staying at the hotel was missing mysteriously and not responding to calls since July 14. The Ashoknagar police registered a missing person complaint and launched a probe.

During the investigation, it was revealed that on July 14, Melwin left in a car with Mahima allegedly booked by her. However, near Koramangala, the driver reportedly took a detour and he stopped a few metres ahead where two others got inside the car. Melwin's face was allegedly covered with a mask, and he was beaten up. The suspects allegedly took his phone and a bag containing ₹1 lakh.

Tortured

He was then taken to a service apartment where he was allegedly tied up and tortured physically and a demand was made for ₹50 lakh in cash for his release. Melwin tried to negotiate it down to ₹20 lakh, but to no avail. Melwin reportedly told the police that the suspects used to lock him inside the room and feed him before going out.

Melwin even tried to starve himself, thinking they would take him to the hospital. When he agreed to pay ₹50 lakh, they allegedly demanded ₹2.5 crore.

The case took an interesting turn on July 22 when a woman from a neighbouring apartment heard Melwin's cries for help after the accused left. With the woman's help, he called his sister and informed her that he was in trouble.

When his captors returned they realised that something was amiss and forced him into a car before dropping him off near Yeshwantpur. This was because the police had managed to arrest the four people who were keeping a watch on the apartment after tracing them through local intelligence.

Mass burial case: SIT records complainant's statement

The Hindu Bureau
MANGALURU

The Special Investigation Team, which is looking into the complaint of mass burial of bodies in Dharmasthala, began recording of the statement of the complainant on Saturday.

Following a complaint on July 3 by a former sanitation worker about burial of more than 100 bodies, the State government on July 19 set up an SIT headed by Director General of Police Pronab Mohanty to investigate into the compliant.

The SIT visited the office of Dakshina Kannada Superintendent of Police K. Arun and the jurisdictional Dharmasthala police station on Friday.

On Saturday, the complainant was called to the SIT camp office in Mangaluru for recording of his statement. Ojaswi Gowda, advocate representing the complainant, told *The Hindu,* "Recording of statement began today."

The SIT officers said the recording of statement of the complainant was the first step in the investigation. Further action will be taken based on his statement, they said.

National quiz for students launched

The Hindu Bureau
BENGALURU

On the occasion of National Flag Day, #ReclaimConstitution, a citizens' collective working towards improving constitutional literacy, announced the launch of the first edition of their 'Constitution Quiz' with a flag hoisting ceremony at RBANM's High School in Bengaluru.

The quiz, which is being organised under the aegis of the International Institute for Art, Culture & Democracy for students of classes 8 to 12, hopes to foster a deeper understanding of the spirit of the Constitution, the Constituent Assembly debates, the ideas and struggles that led to the Constitution and the contemporary relevance of constitutional values.

Registrations are now open for students of public and private schools as well as to homeschooled children.

An online preliminary round will be held on November 26, 2025 (Constitution Day), and the grand finale will be held on January 26, 2026 on Republic Day.

Top teams from each of the six zones will be selected from the preliminary round.

The winners of the quiz get an all-expenses-paid trip. More details on www.iiacdfoundation.org.

PUBLIC NOTICE

Ganitha-Ganaka programme extended to all govt. schools

An order was recently issued stating that around 13.51 lakh students studying in classes 3, 4, and 5 in 38,548 primary and higher primary government schools across State would be beneficiaries

Jayanth R.
BENGALURU

Some 75,000 teachers selected for this initiative will call students on the phone and help them solve problems in mathematics. All these calls are recorded and all charges reimbursed to teachers by the government. FILE PHOTO

With an aim to increase interest in learning mathematics among children, the State government has decided to to extend the Ganitha-Ganaka programme, in which teachers explain basic mathematic concepts to schoolchildren through Remote Tutoring (phone calls) after school hours, to all government schools across the State for the academic year 2025-26.

The government recently issued an order stating that about 13.51 lakh students studying in classes 3, 4, and 5 in 38,548 primary and higher primary government schools across State would be beneficiaries of this programme.

In the academic year 2024-25, the government introduced the programme for students from classes 3 to 5 in 14,711 government primary schools in 93 ambitious taluks of 17 districts and about 6.99 lakh students benefitted from it. An assessment showed that the programme helped children develop an interest in learning mathematics and, buoyed by this success, the government extended the programme to all government schools across the State this year.

The programme would be implemented in collaboration with Samagra Shikshan Karnataka (SSK), Department of State Educational Research and Training (DSERT), Abdul Latif Jameel Poverty Action Lab (J-PAL) South Asia, Alokit and Youth Impact.

An assessment showed that the programme helped children develop an interest in learning maths and, buoyed by this success, the government extended it across the State

Remedial teaching

The State government has recently decided to scrap the Nali-Kali programme, where students from classes 1 to 3 are taught in the same classroom, due to its ineffectiveness. Annual Status of Education Report (ASER-Rural) and National Achievement Survey (NAS) data for the last five years have emphasised that students are lagging behind in learning due to this teaching method being ineffective. Ganitha-Ganaka programme is being implemented as remedial teaching for children who are lagging behind in learning.

The State government has selected about 75,000 mathematics teachers for the implementation of the Ganitha-Ganaka programme and will train them. These teachers will call students on the phone and help them solve problems in mathematics. All these calls are recorded and all charges reimbursed to teachers by the government. Each teacher will get ₹800 towards this and the government has allocated ₹6 crore for this programme.

Bank of Baroda signs MoU with BMTC

The Hindu Bureau
BENGALURU

Bank of Baroda (BoB) on Friday, has signed an MoU with Bangalore Metropolitan Transport Corporation (BMTC) to provide a specialised salary account package for its permanent employees. The agreement was formalised at BMTC Headquarters in the presence of Transport Minister Ramalinga Reddy.

BoB will offer zero-balance salary accounts with exclusive benefits such as ₹10 lakh free term life insurance and up to ₹145 lakh personal accident insurance.

Rain: One killed in house collapse in Kodagu

The Hindu Bureau
MYSURU

Incessant rains have been lashing many parts of Kodagu for the past few days, and multiple incidents of damage to property have been reported from across the district in the last 24 hours. A woman was killed and another person was injured when their house collapsed in the early hours of Saturday at Hanagallu village in Somwarpet taluk. The deceased has been identified as Sushma. Her brother, Akshay, suffered shoulder injuries. Three children living with them also suffered minor injuries.

The India Meteorological Department has issued an orange alert for the district, which is valid till 8.30 a.m. on Sunday.

CMR University holds orientation ceremony

The Hindu Bureau
BENGALURU

CMR University on Friday, opened its 2025-26 academic year with an orientation for over 1,100 new undergraduate and postgraduate students from the Schools of Economics and Commerce, Legal Studies, Management, and Science and Computer Studies. The event was held on the university's OMBR campus. Retired High Court judge B.A. Patil addressed the incoming batch, emphasising the importance of focused learning and personal growth. K.C. Ramamurthy, chairman of CMR Group, advised students to adopt long-term planning and disciplined effort. Vice-Chancellor H.B. Raghavendra also spoke.

SHUT Clinic's parent group on technology addiction gets about 5,000 registrations

Afshan Yasmeen
BENGALURU

The structured sessions guide parents on setting boundaries, fostering healthy offline activities, and identifying signs of problematic technology use.

Within two months of starting a parent group for management of technology addiction of their children, the SHUT Clinic at NIHMANS Centre for Well Being has received around 5,000 registrations from across the country.

Doctors at the clinic, which focuses on addressing problems arising from excessive screen use and internet addiction, have trained more than 1,000 parents in effective techniques to manage their children's screen-related issues.

Manoj Kumar Sharma, Professor, Department of Clinical Psychology, who also heads the SHUT Clinic at NIMHANS, said the online training series was launched from May end to help parents manage their children's excessive screen use and related behavioural issues.

Redesigned

"Initially, we started the training with sessions spanning over four Saturdays on Zoom. But, following the overwhelming response, we have now redesigned the sessions and reduced the duration to two Saturdays. This is to ensure all those who have registered under the parent group are covered at the earliest," Dr. Sharma said.

The structured sessions guide parents on setting boundaries, fostering healthy offline activities, and identifying signs of problematic technology use. The high demand for these sessions, Dr. Sharma said, highlights the growing concern among parents about the impact of gadgets and screens on their children's mental health and well-being.

Given the overwhelming demand, the SHUT Clinic is working on scaling up capacity to reach out to all registered parents and also accommodate more in the coming months. "We are working on developing online modules and training more facilitators to help parents implement practical strategies to promote healthy technology habits at home. We are not just addressing a child's behaviour but fostering healthier family dynamics," the doctor said.

Helplessness

Clinical psychologists and research scholars at SHUT Clinic, Neha John and Ahsana T.H., who are among those who provide the online training sessions to parents, said most commonly the participants expressed helplessness as they are unable to handle the addiction in their children.

"We have parents telling us they feel helpless as children refuse to spend family time. They express difficulty in handling their teenagers, who are glued to screens late into the night or become aggressive when asked to log off," said Ms. John.

The sessions are designed to empower families to address these issues without resorting to confrontation. "We advise parents on setting consistent rules for screen time, designating device-free zones and hours at home, encouraging outdoor play, hobbies, and family interactions. It is most important to understand the psychological triggers behind excessive screen use," Ms. Ahsana said.

Although the SHUT Clinic has been seeing cases of technology addiction since its inception in 2014, there has been a sharp rise in families seeking help during and after the COVID-19 pandemic.

"We also help parents reflect on their own technology habits. Children often emulate what they see. If parents are on their phones constantly, it is harder to enforce limits. Technology itself is not the enemy. It is about balance," he added. Interested parents can contact NCWB on (080) 26685948, 94808 29670; nimhans.wellbeing@gmail.com

Over 40 calls a month on helpline

The Hindu Bureau
BENGALURU

The Digital Detox helpline - 9480829675 - run by the SHUT Clinic, which receives about 30 to 40 calls every month, has emerged as a crucial support system for those grappling with problematic technology use

Dr. Manoj Kumar Sharma said its consistent call volume indicates not just the helpline's popularity but also the increasing recognition of screen addiction as a serious mental health concern. Callers include students, working professionals, and anxious parents seeking help for their children, all of whom turn to the helpline for practical strategies to limit screen time, cope with withdrawal symptoms, and rebuild offline connections.

FSDA declares chicken kebabs from an outlet of a popular restaurant in city 'unsafe'

The Hindu Bureau
BENGALURU

Despite a ban on the use of artificial food colours in food preparation, a popular restaurant chain in Bengaluru has been reportedly found to be using synthetic food colours in chicken kebabs.

The Food Safety and Drug Administration (FSDA), through its State-level inspection and laboratory testing, has declared chicken kebab samples from one of the several outlets of Empire Restaurant in Bengaluru "unsafe" for consumption.

Officials from FSDA said chicken kebab samples were collected from several Empire branches. The samples from the chain's outlet in Gandhinagar was specifically flagged after two kg of kebab samples were collected from there and tested in the State Food Laboratory at the Public Health Institute on June 26.

"Upon testing, the lab confirmed that the food item was unsafe, based on parameters prescribed under the Food Safety and Standards Act, 2006. A notice has now been issued to the Empire Restaurant in Gandhinagar, giving it 30 days to respond," a top official said.

Officials said samples were collected from several Empire branches

The restaurant has been given the option of challenging the report by placing a request for retesting the second part of the food sample at CFTRI, Mysuru, at their own cost, within the 30-day window. If no response is received within that period, legal action under the FSSAI Act will be initiated, the official said.

Last year's ban

In June last year, the government had banned the use of artificial colours in kebabs made with vegetables, chicken, and fish across the State and had warned those involved in the manufacturing and sale of kebabs in the State to strictly comply with the ban.

The decision then followed an analysis of 39 kebab samples from various locations in the State by government-run laboratories. Tests had revealed that eight of the 39 samples were unsafe owing to the presence of artificial colouring agents. While the presence of sunset yellow colour was found in seven samples, one sample had sunset yellow and carmoisine colours, which are harmful to health.

"The use of such additives is prohibited under the Food Safety and Standards Act, 2006, and the Food Safety and Standards (Food Products, Standards and Food Additives) Regulations, 2011, as they pose serious health risks to consumers. Hence, the use of such artificial colours has been banned in the preparation of both vegetarian and non-vegetarian kebabs," the official order had stated.

The violation of these rules can lead to imprisonment, ranging from a minimum of seven years up to life term and a fine of up to ₹10 lakh under Rule 59 of the Act, the order stated.

Prior to that, in March, the State government had banned the use of artificial colours in edible items such as gobi manchurian and cotton candy. The ban was imposed after carcinogenic chemicals were found in the artificial colours used in these food items.

Man hammers his three nephews; two dead

The police rushed to the spot and shifted the children to the hospital where the doctors declared two of them dead, while Roshan has been shifted to National Institute of Mental Health and Neurosciences (NIMHANS) for further treatment.

The Hebbagodi police have arrested Kasim Pasha from the spot. The police said he was incoherent. "He looks disturbed," the police said.

The accused used to have frequent fights with his family members, said the police. After a fight over a trivial issue, he had left home and was traced a month ago and brought back by Chand Pasha from Tamil Nadu.

The incident has left the entire neighbourhood stunned. "It is shocking how he can kill the children who used to stay and play with him all the time," Toufiq, the family's neighbour, told *The Hindu*.

Infosys co-founder Shibulal and wife to build a cultural centre

Mini Tejaswi
BENGALURU

In 18 months, South Bengaluru will have a unique cultural centre for theatre, Indian classical music, art, dance, and folk forms, which will also serve as a training institute for these forms.

Sangamam India, an initiative of Shibulal Family Philanthropic Initiatives (SFPI), is currently in the process of building a 20,000 sq ft. space for performances, exhibitions, teaching, and mentoring at J.P. Nagar.

"It is high time our city, especially the south of Bengaluru, had a dedicated space for all kinds of art forms, music, culture, and theatre, including stand-up comedies, plus a place to teach all these, all under the same umbrella," S.D. Shibulal, co-founder of SFPI and co-founder and former CEO, Infosys, told *The Hindu*.

S.D. Shibulal and his wife Kumari Shibulal set up Sangamam India in 2022. SPECIAL ARRANGEMENT

> It is high time our city, especially the south of Bengaluru, had a dedicated space for all kinds of art forms, plus a place to teach them, all under the same umbrella
>
> **S.D. SHIBULAL,** Co-founder and former CEO, Infosys

The facility, a three-floor building, will feature an auditorium that can seat 270 people, an exhibition hall, and a training/learning/mentoring centre on the third floor with parking space.

Kumari Shibulal said: "Music and other art forms can bring people together and create a common platform that transcend boundaries and differences. Both Mr. Shibu and I are inclined to Indian classical music, and it is our admiration for heritage and culture that sowed the seed for Sangamam a couple of years ago."

Sangamam India was set up in 2022, aiming to promote the rich tapestry of India's heritage and diverse art forms, while fostering awareness and preservation of cultural legacy.

Sangamam has been hosting two major events every six months, along with monthly events throughout the year.

Sangamam currently holds its events at different auditoriums, and it has been bringing the best national and local artists to the city.

According to the couple, Sangamam bridges the gap between the past and present, bringing together artists, artisans, and audiences from across the country in a spirit of respect, learning, and continuity.

MINISTRY OF ROAD TRANSPORT AND HIGHWAYS
NOTIFICATION
New Delhi, the 18th July, 2025

S.O. 3285(E).—In exercise of powers conferred by sub-section (1) of section 3A of the National Highways Act, 1956 (48 of 1956) (hereinafter referred to as the said Act), the Central Government, after being satisfied that for the public purpose, the land, the brief description of which is given in the Schedule below, is required for building(widening/four laning etc.,), maintenance, management and operation of National Highway 766C in the stretch of land from Km 146.00 to Km 154.00 (Baindoor - Ranebennur section) in the district of SHIVAMOGGA in the state of KARNATAKA, hereby declares its intention to acquire such land.

Any person interested in the said land may, within twenty-one days from the date of publication of this notification in the Official Gazette, object to the use of such land for the aforesaid purpose under sub-section(1) of section 3C of the said Act.

Every such objection shall be made to the Competent Authority, namely, Special Land Acquisition Officer and Assistant Commissioner Sagar Sub Division Sagar in writing and shall set out the grounds thereof and the Competent Authority shall give the objector an opportunity of being heard, either in person or by a legal practitioner, and may, after hearing all such objections and after making such further enquiry, if any, as the Competent Authority thinks necessary, by order, either allow or disallow the objections.

Any order made by the Competent Authority under sub-section (2) of section 3C of the said Act shall be final.

The land plans and other details of the land to be acquired under their notification are available and can be inspected by the interested person at the aforesaid office of the Competent Authority.

SCHEDULE : Brief Description of the land to be acquired with or without structures falling within the stretch of land from Km 146.00 to Km 154.00 (Baindoor - Ranebennur section) of National Highway 766C in the state of KARNATAKA.

Sigandoor temple trust seeks 4.19 ha of forestland for its activities

Sathish G.T.
SHIVAMOGGA

The private trust that manages the Sigandoor Chowdeshwari temple in Sagar taluk of Shivamogga district has sought 4.19 hectares of forestland, on lease for 99 years, for the temple's activities. It wants the land that falls within the protected area of the Sharavati Valley Lion Tailed Macaque Wildlife Sanctuary in survey numbers 65 and 32 of Brahmanavada Kalasavalli village in Sagar taluk.

The temple, located on the bank of the Sharavati backwaters, attracts hundreds of devotees every day. Recently, Union Minister for Road Transport and Highways Nitin Gadkari visited the temple soon after inaugurating the bridge built across the Sharavati backwaters. The Minister also named the bridge after Sigandoor Chowdeshwari.

Union Minister Nitin Gadkari visited the Sigandoor Chowdeshwari temple in Sagar taluk of Shivamogga after inaugurating a bridge built across the Sharavati backwaters recently. SPECIAL ARRANGEMENT

Proposal submitted

Ravikumar H.R., on July 16, submitted the proposal, on behalf of Shree Sigandoor Chowdamma Devi Trust, to the Ministry of Environment, Forests and Climate Change. He sought the diversion of the forestland for the temple activities and also approached the State and national wildlife boards to recommend the same. The trust has already built dining halls, guest houses, toilets, a parking yard, and houses for staff members on the said land. In its justification for the request, the applicant stated that "all these buildings were constructed in the area falling under the jurisdiction of the Forest Department before we knew it", admitting to building the structures in the forest area without prior approval.

Trust claims it built guest houses, dining halls, and other structures on the forestland before it knew the land belonged to the Forest Dept.

For afforestation

In lieu of the forestland, the trust has proposed to transfer and mutate 4.44 ha (10 acres and 39 guntas) of private land located at Nelahari and Kanapagaru villages in Barangi hobli of Sagar taluk in the name of the Forest Department for compensatory afforestation. The land is in the name of Ramappa, the managing trustee.

The applicant has submitted that a writ petition regarding the encroachment of the forestland had been pending before the Karnataka High Court.

Besides that, there have been allegations of encroaching forestland against the trust. In 2020, when the managing trustee of the trust, Mr. Ramappa, and the head priest, Sheshagiri Bhat, had differences over temple administration, the Shivamogga district administration constituted a committee to manage the temple temporarily. Then, the Shivamogga Deputy Commissioner had said that the trust had encroached upon nearly 20 acres of the forestland. The trust has now sought the same land on lease.

The proposal is under scrutiny before Deputy Conservator of Forests (Wildlife) Prasanna Krishna Patagar.

The officer, when contacted by *The Hindu*, said he had sought a detailed report from the Range Forest Officer on the proposal.

"The proposal can be submitted, seeking diversion of forestland already encroached upon. In that case, the government can impose double the net present value (NPV) and other charges. However, it is left to the government's discretion to consider the proposal," he said.

Mahadayi back to the forefront after Goa CM's statement; farmers want action, not politics

A meeting of farmers seeking implementation of project is planned at Nargund on July 31 to chalk out the course of action

The Hindu Bureau
HUBBALLI

The long-pending Mahadayi project is again in the news following the Goa Chief Minister's statement in the Legislative Assembly about Union Minister for Forest and Environment Bhupendra Yadav's "assurance" that the project will not be approved.

While the Karnataka government has already taken exception to this, farmers' organisations fighting for the Kalasa-Banduri Nala Project (which is part of the Mahadayi project) are now up in arms against political parties, particularly the BJP, as the recent statement comes from its dispensation.

Karnataka Chief Minister Siddaramaiah and Law and Parliamentary Affairs Minister H.K. Patil have condemned the statement of Goa Chief Minister Pramod Sawant and said that such development was not only an "injustice to the federal system" but also indicated the stepmotherly treatment meted out to Karnataka by the BJP-led NDA government at the Centre.

Long-awaited project: A file photo of the Kalasa Nala, a tributary of the Mahadayi at Kanakumbi in Belagavi district. The demand for the Kalasa-Banduri Nala project, which is part of the Mahadayi project, is over four decades old.

BJP on the back foot

The development has put the BJP leaders from the State on the back foot, particularly Union Minister for Consumer Affairs, Food and Public Distribution Pralhad Joshi and others, including Arvind Bellad, who hitherto used to refer to the then AICC president Sonia Gandhi's statement against the project during an election campaign.

Mr. Joshi has issued a statement saying that the Goa Chief Minister had made a "personal statement" and it had nothing to do with the Union government.

Emphasising that it was not time for politicising the issue, Mr. Joshi has said that after his earlier meeting with Mr. Yadav on the Mahadayi issue, Deputy Chief Minister D.K. Shivakumar had said that Mr. Yadav would not do politics over the issue and that he was pro-development. Other BJP leaders in the region, including Deputy Leader of the Opposition in the Legislative Assembly Mr. Bellad, and former Minister Shankar Patil Munenakoppa too have taken a similar line.

However, farmers' organisations, which have been fighting for the implementation of the long-pending project, have not taken the statement lightly and have condemned it in strong terms. At the same time, they have urged politicians on both sides of the divide not to use the issue for their politics.

'Exert pressure'

President of the Karnataka Raita Sene Shankrappa Ambali has said that instead of again indulging in the blame game, all the Members of Parliament from Karnataka should exert pressure on the Union government to get the required clearances as the Mahadayi Water Disputes Tribunal had already given its verdict, and the DPR had also been approved. "What is now required is getting required clearances and the MPs should make concerted efforts in this regard," he said.

Statement flayed

Veeresh Sobaradmath Swami, who has been leading an indefinite agitation for the project at Nargund in Gadag district, not only termed Mr. Sawanth's statement as "highly condemnable", but also Mr. Joshi's reaction to it as "highly irresponsible". He said he would would be convening a farmers' meeting at Nargund on July 31 to chalk out the course of action.

While the demand for the Kalasa-Banduri Nala project is over four decades old, an indefinite agitation was launched at Nargund on July 16, 2015, and amid various ups and downs, the stir has been continued by farmers who are insistent on getting the project implemented. Now their demand is that the Centre should give all clearances for the project to be executed to utilise the water allocated by the tribunal.

A tribute

Commemorating victory: A visitor poses with Madras Engineer Group and Centre personnel during the unveiling of the 75-ft 'Veeragallu' (hero stone) to mark the 26th Kargil Vijay Diwas, at the National Military Memorial Park in Bengaluru on Saturday. ALLEN EGENUSE J.

Nod for setting up residential schools for children of construction workers in 31 dists.

The Hindu Bureau
MANGALURU

The State government on July 22 approved setting up residential schools for children of construction workers in 31 districts, as proposed by the Karnataka Building and Other Construction Workers' Welfare Board, to offer education from class 6 to class 12.

An order issued by the Labour Department stated that Chief Minister Siddaramaiah had announced in the 2025-26 Budget about setting up residential schools for the children of construction workers in the 31 districts of the State to provide them quality education for free. As a prelude, the Karnataka Building and Other Construction Workers' Welfare Board, in its 44th meeting on March 1, proposed setting up of such schools for the children of beneficiaries of the board.

Facilities

Following the Budget announcement, the board secretary and the CEO, on April 28, proposed to the government to establish residential schools at a cost of ₹1,125.25 crore.

Each school would have one room each for every class, and rooms for laboratory, library, multi-tasking, sports, and an office. They would also have separate hostel buildings for boys and girls, a dining hall, kitchen, residential quarters for teachers, compound wall, along with necessary furniture and other equipment. Each residential school would come up on 83,073 sq. ft area (close to 2 acres), the board told the government. Approving the proposal, the order stated that the board should undertake construction of buildings from its funds. The schools will be maintained by the board. Specific sums have been earmarked for furniture (₹3 crore), and for laboratory equipment (₹75 lakh).

Health Dept. recalls services of 28 employees deputed as food safety officers

The Hindu Bureau
BENGALURU

This follows review of the service particulars of these officers deputed under the Food Safety and Standards Act, 2006

The State Health Department has recalled the services of 28 employees who were deployed on deputation in the Food Safety and Drug Administration Department to serve as food safety officers (FSOs). This follows a review of the service particulars of these officers deputed under the Food Safety and Standards Act, 2006.

According to a Government Order (GO) issued on July 23, these officers did not possess the educational qualification prescribed under the Food Safety and Standards Rules, 2011, at the time of their functional appointment or deputation to the Food Safety and Drug Administration Department. Further, some among them have obtained degrees from open or distance education institutions but that was done without prior departmental approval, which renders their qualification ineligible under the rules in force.

The officers had approached the Karnataka High Court seeking regularisation of their services as FSOs and also a revision of pay scale. However, the court rejected their petition.

Deputation period

Harsh Gupta, Principal Secretary, Health and Family Welfare, told *The Hindu* that as per Rule 16 of the Karnataka Civil Services (General Recruitment) Rules, 1977, the permissible maximum deputation period of eight years, including extensions, has already been completed in respect of these officers.

"In light of the above and considering the potential legal complications arising from the continued discharge of statutory enforcement functions by ineligible personnel, it is concluded that their deputation as food safety officers cannot be continued any further. Therefore, action has been initiated to repatriate such officers to their parent cadre in the Health and Family Welfare Department," he said.

'Bengaluru is already a quantum hub'

The Hindu Bureau
BENGALURU

India's first quantum computer has already become operational in Bengaluru, and the city has become an epicentre of the country's quantum development, Minister for Minor Irrigation, Science, and Technology N.S. Boseraju has said.

N.S. Boseraju

This came in response to Andhra Pradesh Chief Minister Chandrababu Naidu's earlier announcement of a collaboration with QPIAI, a quantum computing company, to establish the ambitious Amaravati Quantum Valley, under the National Quantum Mission. Mr. Naidu claimed this would mark the first such quantum technology hub in India, aimed at advancing research and innovation.

Home to Indus

Responding to this, Mr. Boseraju said Bengaluru has already made significant progress as the hub of India's quantum sector. A prime example is the 25-qubit quantum computer 'Indus', indigenously developed and operational in Bengaluru.

Mr. Boseraju said India's first Quantum Research Park has been established at the Indian Institute of Science (IISc), Bengaluru.

A two-day Quantum Summit was being organised in Bengaluru from July 31. Nobel laureates in the field of quantum technology would participate in this summit, he said.

Yathindra draws flak for comparing his father to Nalwadi

The Hindu Bureau
BENGALURU

The MLC's comment is a poor joke, says BJP leader Ashok

Chief Minister Siddaramaiah's son Yathindra, MLC, came under criticism on Saturday following his claim that the Congress government led by his father had "equalled, if not surpassed" the accomplishments of Nalwadi Krishnaraja Wadiyar in terms of grants given to Mysuru and contributing to the welfare of the city.

Responding to his son's comments, Chief Minister Siddaramaiah, speaking to reporters at Arsikere in Hassan district on Saturday, chose to skirt the comparison to the iconic Wadiyar king known for his reformist rule, and instead said that his government had outperformed the previous BJP dispensation. "We have done more work than the BJP," he said.

Meanwhile, BJP leaders frowned upon Mr. Yathindra for drawing such a comparison. Leader of the Opposition in the Assembly R. Ashok called Mr. Yathindra's comment "a poor joke". MP for Mysuru Yaduveer Krishnadatta Chamaraja Wadiyar, scion of the Wadiyar family, said there was no need to make any such comparison, as leaders, whether in democracy or monarchy, have the responsibility to serve the people.

OBITUARY & REMEMBRANCE

DEATH

E. SELVARAJ (73), Retired Assistant Engineer (Composing), The Hindu, Chennai passed away on 25-July-2025 Address: 3/546, Third Street, Thiruvalluvar Nagar, Jelladianpet, Medavakkam, Chennai - 600100. Contact: 7092161111

DEATH ANNIVERSARIES

Mr. P.BALASUBRAMANIAN
23.06.1957 to 27.07.2009

As we celebrate 30 years of innovation and service, we pause to remember and honor the visionary who laid the foundation of our journey - Mr. Balasubramanian, our beloved Managing Director.

His unwavering dedication and foresight have been instrumental in shaping what BASE stands for today. His legacy continues to guide and inspire every milestone we achieve. His values are deeply embedded in our culture, and his dreams live on through every project, every innovation, and every team member.

We remember him with deep gratitude and profound respect.

INBRIEF

Sandra Thomas to run for top post of Kerala film chamber

Malayalam film producer Sandra Thomas arrived at the Kerala Film Producers' Association on Saturday wearing a burqa to file her nomination for the election to the executive committee of the body on August 14. She is contesting for the post of president amid her rift with the current leadership of the association for their silence on the Hema Committee report. She said that wearing a burqa was the safest option while visiting a space that has been dominated by men.

Two senior police officers killed in A.P. road accident

Two Deputy Superintendents of Police (DSPs) rank officers working with the Intelligence Department of the Andhra Pradesh police died on spot in a road accident in Choutuppal, Yadadri district, in the early hours of Saturday. The officers have been identified as Chakradhar Rao and Shantha Rao. Additional Superintendent of Police K.V.S. Prasad, who was in the vehicle, and the driver sustained serious injuries and have been shifted to a hospital for treatment.

Manager of Kollam school dismissed over student death

The Kerala government dismissed the manager of High School for Boys, Thevalakkara, in Kollam district and entrusted the District Education Officer with the school's administration after the death of a 13-year-old student by electrocution from an overhead power line on the school premises on July 17. Minister V. Sivankutty told media that a report of Director of General Education had found grave dereliction of duty by manager R. Thulasidharan Pillai.

Day after Kannur jailbreak, CM orders high-level probe

Pinarayi Vijayan orders comprehensive inquiry by a special team headed by a former HC judge and ex-State police chief; new Central Prison, staff transfers, and jail facility upgrades mooted

The Hindu Bureau
THIRUVANANTHAPURAM

Kerala Chief Minister Pinarayi Vijayan has directed a comprehensive inquiry into the incident of Govindachamy, convicted of the rape and murder of a 23-year-old woman in 2011, escaping from the high-security block of the Kannur Central Prison on Friday. The police captured him a few hours later.

A police investigation and department-level inspections are under way. In addition to these, a detailed investigation will be conducted by a special team headed by former Kerala High Court judge C.N. Ramachandran Nair and former State police chief Jacob Punnoose.

The decision was taken at a high-level meeting called by the Chief Minister. He said the incident is extremely serious and warrants a detailed investigation to take corrective action. It has been decided to make electric fencing fully operational in all four major jails in the State within the next three months. Intelligent CCTV that can capture detailed footage will be installed in the four major jails.

Security lapse: Govindachamy was caught hours after his escape and brought back to the Kannur Central Prison on Friday. S.K. MOHAN

Jail staff who have completed five years in each place will be transferred to other places. Further, intelligence activities will be strengthened inside jails. Many of the convicted criminals are currently lodged in high-security jails. Inter-State jail transfers will also be considered for such people, the Chief Minister said.

Steps would be taken to strengthen the existing video conferencing system in the jails.

A new central jail will be started given the fact that existing jails have more prisoners than their carrying capacity. The meeting also decided that efforts will be made to find land in Kottayam and Pathanamthitta for this purpose.

Convict moved to another jail

KANNUR
Govindachamy was shifted to Viyyur Central Jail in Thrissur under tight security on Saturday. Three officials were suspended for dereliction of duty following the convict's short-lived jailbreak. The incident has raised serious questions about prison security protocols in Kerala.

Air Quality Code: Poor Moderate Good (Readings indicate average AQI)

Yesterday

In observation made at 4.00 p.m., Nandesari, Gujarat recorded an overall air quality index (AQI) score of 176 indicating a moderate level of pollution. In contrast, Amravati, Maharashtra recorded a healthy AQI score of 20

SO_2: Sulphur Dioxide. Short-term exposure can harm the respiratory system, making breathing difficult. It can affect visibility by reacting with other air particles to form haze and stain culturally important objects such as statues and monuments.

NO_2: Nitrogen Dioxide. Aggravates respiratory illness, causes haze to form by reacting with other air particles, causes acid rain, pollutes coastal waters.

CO: Carbon monoxide. High concentration in air reduces oxygen supply to critical organs like the heart and brain. At very high levels, it can cause dizziness, confusion, unconsciousness and even death.

PM2.5 & PM10: Particulate matter pollution can cause irritation of the eyes, nose and throat, coughing, chest tightness and shortness of breath, reduced lung function, irregular heartbeat, asthma attacks, heart attacks and premature death in people with heart or lung disease

Congress leader quits as district president after phone call leak leaves party red-faced

The Hindu Bureau
THIRUVANANTHAPURAM

A leaked telephone call purportedly involving Thiruvananthapuram District Congress Committee president Palode Ravi embarrassed the Congress on Saturday, leading to Mr. Ravi's resignation from the post at the close of the day. Kerala Pradesh Congress Committee president Sunny Joseph accepted the resignation.

The party expelled A. Jaleel, its Vamanapuram block general secretary, who, it is said, was at the other end of the phone call, upon finding that he was involved in anti-party activities. The leaked tape, containing disparaging predictions about the Congress faring poorly in the local body polls later this year and falling headlong in the Assembly, had put the party on the defensive through the day.

While Mr. Ravi, former MLA and Deputy Speaker in the Kerala Assembly, sought to portray the contents of the conversation as a wake-up call and a warning routinely issued to party workers down the chain of command, the State leadership was not pleased and sought an explanation from him.

Maoist couple, 13 other cadre surrender in Vijayawada

The Hindu Bureau
VIJAYAWADA

CPI (Maoist) East Bastar divisional committee incharge and State zonal committee member Jorige Nagaraju, alias Kamalesh, and his wife and divisional committee member Medaka Jyoteeswari, alias Aruna, surrendered before Director General of Police Harish Kumar Gupta here on Saturday. The DGP handed over cheques of ₹22 lakh to 13 other Maoists who had also surrendered.

Mr. Nagaraju, a native of Poranki village in Krishna district, had served in various cadres in the banned outfit for 34 years and carried a reward of ₹20 lakh on his head. Ms. Aruna, had been associated with the banned outfit for 30 years. "The government had announced a reward of ₹5 lakh on her head," Mr. Harish Kumar Gupta told the media.

"Due to lack of public support, poor recruitments, death of senior cadres in the Maoist party, and disillusionment with the party ideology, the couple decided to give up arms, avail the benefits of the Surrender and Rehabilitation Policy, and join the mainstream," Mr. Kumar said.

Stern warning
Issuing a stern warning to the members of the banned outfit to either surrender or get killed before the seven-month deadline expired, the DGP said. "We are hopeful of wiping out the Maoists in Andhra Pradesh by the end of this year. At present, there are no Naxal movements and recruitments in the State," the DGP told *The Hindu*.

Couple escape leopard attack on Tirumala road

The Hindu Bureau
TIRUPATI

A couple on a two-wheeler escaped from a leopard attack near Zoo Park Road on Tirumala ghat road around 7 p.m. on Friday.

A video footage of the incident, recorded from a car behind the two-wheeler, is doing the rounds on social media from Saturday morning.

The couple were going on a motorcycle, and a leopard came charging towards the vehicle. The animal tried to catch the pillion rider but missed and fell on the road after hitting the bike. The rider managed retain control of the vehicle and sped away.

T.N. tribal woman, untraceable for 10 days, delivers baby in Chamarajanagar

S.P. Saravanan
ERODE

Chamarajanagar is 23 km from Thalavadi, and most pregnant women with complications from the region are referred there for delivery

Shevanthi, a 25-year-old pregnant woman from Solagar Dhoddi in the Thalavadi Hills, who had been untraceable for 10 days after refusing hospital admission, delivered a healthy baby boy at the District Government Hospital in Chamarajanagar, Karnataka, early Saturday.

She developed labour pains around 10 p.m. on Friday and was taken to the Government Upgraded Primary Health Centre (PHC) in Thalavadi. As the baby was estimated to weigh around 3 kg, she was referred to the government hospital in Chamarajanagar to avoid complications.

Accompanied by three Health Department staff, she was taken to the hospital and the baby was born through natural delivery at 12.05 a.m.

To be discharged
A member of the health staff told *The Hindu* that both the mother and baby were doing well. Shevanthi is likely to be discharged within three days, depending on their condition, the staff member said.

Delivery schedule
Her delivery was initially scheduled for July 7, but she refused hospitalisation and went to a relative's house in Karnataka. She later underwent a scan in Chamarajanagar, where doctors revised her expected delivery date to July 27. During this period, her whereabouts were unknown, and a complaint was lodged with the police.

Repeated counselling
Following repeated counselling and persistent efforts by S. Kannaiyan, president of the Thalavadi Farmers' Foundation, she eventually returned home. On July 18, she was taken to the Thalavadi hospital for a check-up.

Although doctors advised immediate admission, she insisted she would return only once labour pains began, and subsequently left for home.

A 30-minute drive
Chamarajanagar is 23 km (about a 30-minute drive) from Thalavadi, and most pregnant women with complications from the region are referred there for delivery.

Difficult to navigate
In contrast, reaching the Sathyamangalam Government Hospital, which is 58 km away (a 1 hour 40-minute drive), requires patients to pass through a 14-km stretch of Dhimbam Ghat Road, which includes 27 hairpin bends within the Sathyamangalam Tiger Reserve (STR), making access more challenging.

For five tribal settlements in Munnar, access to proper road remains a distant dream

The Hindu Bureau
IDUKKI

In a stark reminder of the brutal realities faced by indigenous communities, a tribal woman from the remote Valsapettykudy tribal settlement in Anamudi Shola National Park under the Munnar Wildlife Division writhed in pain for hours with no ambulance in sight – because there is no proper road.

Injured on the way to the MGNREGS work site, she was finally carried to the nearest hospital in Marayur on a bamboo stretcher by over 50 fellow tribespeople, trudging six kilometres through treacherous terrain.

This ordeal unfolds as monsoon rain leaves nearly 330 Muthuvan tribal families in five settlements cut off from basic services, trapped in isolation by the government's failure to build a proper road.

State of affairs: A tribal woman being carried on a bamboo stretcher to a hospital at the Valsapettykudy tribal settlement in Munnar on Friday. SPECIAL ARRANGEMENT

According to Idukki block panchayat member C. Rajendran, there is a motorable road from Vattavada to Chilanthiyar and from Ollavayalkudy to Marayur. Between Chilanthiyar and Ollavayalkudy, which is a 13-km stretch, there are tribal settlements such as Valsapettykudy, Moolavallikudy, Vayaltharakudy, Swamiyaralakudy, and Koodallarkudy which are struggling for want of a proper road. Mr. Rajendran said that due to the absence of a proper road, children had to be shifted to hostels at the age of five to attend school.

Isolated by rains
Former Vattavada grama panchayat president R. Ramaraj alleged that officials from the Munnar wildlife division were obstructing the road construction intended for tribal settlements. "People's representatives and local people tried to build a motorable road on the 13-kilometre stretch, but the Forest department opposed it. The five tribal settlements were isolated in the heavy rainfall.," according to Mr. Ramaraj.

Munnar Wildlife Warden K.V. Harikrishnan said the construction of a proper road connecting to the settlements would require 3.5 hectares of forestland. "The Divisional Forest Officer (DFO) can provide one hectare of land. If more land is needed, the user agency of the project should submit an application to MoEF through the Parivesh portal for permission. We will not oppose the road construction," said Mr. Harikrishnan.

Modi, Muizzu signal major reset in relations

The revival in ties between India and the Maldives could be seen in the memorandums of understanding (MoUs) and agreements signed during the Prime Minister's visit to the island nation. Notably, Mr. Muizzu and Mr. Modi inaugurated a new building of the Maldives' Ministry of Defence in Malé, along with other jointly executed infrastructure projects.

The sentiment also came through in Mr. Muizzu's address at the state banquet hosted for Mr. Modi on Friday. Asserting that India has long stood as the "closest and most trusted partner" of the Maldives, he pointed to this year marking 60 years of diplomatic relations between the Maldives and India. He called it "a milestone" that reflects the shared history of the countries, and "the depth and resilience" of the partnership.

The political opposition in the Maldives welcomed the Muizzu government's shift in its India policy.

A senior politician, who requested anonymity, told *The Hindu* that the turnaround in ties was possible after Mr. Muizzu's "realisation" that he needed to work with India "no matter what". He added: "India's broad shoulders and thick skin also helped."

'I feel sorry to be backing Bihar govt.'

Opposition Rashtriya Janata Dal leader Mrityunjay Tiwari, in a response to Mr. Paswan's remarks on the Nitish Kumar-led government's 'inability' to manage law and order, said his party had been drawing attention to the issue. "What Mr. Paswan is saying today, we have been crying for months – that the law and order situation in the State has collapsed. Our party leader, Tejashwi Yadav, has been flagging the ever-spiralling criminal incidents in the State daily. Mr. Paswan has called a spade a spade," he said.

The Congress shared a video of Mr. Paswan's remarks in an attempt to highlight apparent cracks in the ruling NDA. "We agree with what Chirag Paswan has said over the deteriorating law and order situation in Bihar. Every citizen in the State is feeling the same and that's why we have shared Mr. Paswan's video," party spokesperson Rajesh Rathore told *The Hindu* over phone.

Hindustani Awam Morcha-Secular chief and former Chief Minister Jitan Ram Manjhi, also an NDA partner in Bihar, disagreed that Mr. Paswan's remarks suggested a rift between the allies.

Bihar SIR to restore trust in poll rolls: EC

The annexure includes complaints made by the Aam Aadmi Party (AAP) before the Delhi Assembly polls, and by the Congress and its allies about alleged additions made to voter lists during the Maharashtra Assembly polls last year, as well as by the BJP, AIADMK, and Shiv Sena.

"...several recognised political parties across the spectrum have raised serious concerns with the Commission regarding inaccuracies in the electoral rolls – citing the inclusion of ineligible and deceased individuals and exclusion of eligible voters. These concerns arise from the limitations of the summary revision process which does not require fresh preparation of electoral rolls," the EC affidavit said.

Some of the names that could be struck off the draft roll belong to deceased voters, or those who have migrated out of the State, while other voters were registered to vote in two locations or failed to complete their enumeration forms.

Opposition parties, led by the Congress, have been consistently attacking the Election Commission alleging that electoral rolls were manipulated during the Maharashtra and Haryana Assembly polls.

The poll body said that political parties across the spectrum have also voiced concerns regarding the accuracy of the electoral rolls revised through the summary revision process, regarding the wrongful inclusion of the names of deceased, migrated and non-citizen voters. In order to restore public confidence and address these concerns, it has decided to undertake the SIR, the EC said.

'Journalists in trouble over reports on officials'

The criminal charges most frequently invoked against journalists were offences related to public tranquility, criminal intimidation and insult, promoting enmity, defamation, offences against public servants, and offences relating to religion.

G.S. Bajpai, vice-chancellor, NLU, told *The Hindu* that the growing trend of invoking criminal laws against journalists raises serious constitutional concerns. "This report reveals that journalists, particularly from smaller towns, are increasingly being targeted through penal provisions. While it is true that journalists must uphold professional standards and exercise due responsibility in their reporting, the data emerging from this study points to a troubling pattern of criminalisation. Such developments do not bode well for the health of a constitutional democracy, where freedom of the press is a foundational pillar," he said.

Operation Sindoor a stern message to Pak.: Army chief

Any power that tries to challenge the sovereignty of India will be given a befitting reply, says General Dwivedi; President, Prime Minister and Defence Minister pay tributes to Kargil heroes on Vijay Divas

Saurabh Trivedi
NEW DELHI

Warm gesture: Students of a government school tie rakhis on General Upendra Dwivedi at the Kargil War Memorial on the 26th anniversary of Kargil Vijay Divas at Drass in Kargil on Saturday. PTI

Operation Sindoor was a message to Pakistan as well as a response to the Pahalgam terror attack that supporters of terrorism would not be spared, said the Chief of the Army Staff, General Upendra Dwivedi, on Saturday.

"This time India did not only mourn but also showed that the response would be decisive," Gen. Dwivedi said at the Kargil War Memorial in Drass. Addressing a gathering on Vijay Divas, he said a stern response to the adversary was the new normal established by India.

"Any power that tries to challenge the unity, integrity, and sovereignty of India or harm its people will be given a befitting reply," he said.

Gen. Dwivedi said that during the operation, the Army had eliminated nine high-value terrorist targets in Pakistan with zero collateral damage. "India attained a decisive victory by effective targeting of terror infrastructure in Pakistan during Operation Sindoor," he said.

In his keynote address, Gen. Dwivedi paid a heartfelt tribute to the fallen soldiers of the Kargil War. He reflected on the Indian Army's historic victory in 1999 and its resolute defence of national sovereignty during recent Operation Sindoor.

Calling upon youth to serve the nation with honesty and dedication, he closed with a resolute commitment to safeguarding India's unity, sovereignty, and honour.

Tributes on Vijay Divas

President Droupadi Murmu and Prime Minister Narendra Modi on Saturday led the nation in paying tributes to the armed forces personnel who fought to defend India's territory and handed a crushing defeat to Pakistan in the 1999 Kargil conflict.

On July 26, 1999, the Indian Army announced the successful culmination of Operation Vijay, declaring victory after a nearly three-month-long battle on the icy heights of Kargil in Ladakh. More than 500 Indian soldiers died in the conflict that began with Pakistani soldiers intruding into Indian territory. The day is observed as Kargil Vijay Diwas every year.

"This day symbolises the extraordinary valour, courage, and steadfast determination of our jawans. Their dedication and supreme sacrifice for the nation will forever inspire its citizens," Ms. Murmu said in a social media post.

Various events were organised across the country to mark the occasion. Prime Minister Narendra Modi said Kargil Vijay Diwas reminds the country of the unparalleled courage and valour of its soldiers who sacrificed their lives in defending the country's pride.

Defence Minister Rajnath Singh and the top military brass paid tributes to the fallen heroes at the National War Memorial.

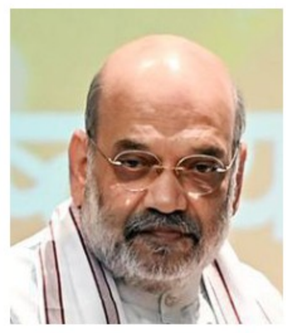
'India's rising stature will lead to security challenges in future'

Vijaita Singh
NEW DELHI



Amit Shah

Union Home Minister Amit Shah said on Saturday that India's rising stature would lead to increasing national security challenges in the years to come. He said such challenges need to be addressed through better coordination for which "homogenous teams of Central and State agencies should be formed".

Mr. Shah was speaking at the conclusion of the two-day 8th National Security Strategies (NSS) Conference-2025 organised by the Intelligence Bureau (IB).

The conference, held in hybrid format, was attended by around 800 police and intelligence officers from across the country.

He also instructed the involvement of young police officers in each State to brainstorm on national challenges and devise solutions to address them.

The Union Minister emphasised that the next 5-10 years would be very important for the development and security of the country. He said that internal security challenges would remain dynamic in view of India's geopolitical neighbourhood, asking State and Central security agencies to adopt the motto of "*Suraksha*, *Sajagta*, and Samanvay (Security, alertness, and coordination)".

Action on drug cartels

He asked for strict action against big drug cartels, besides focusing on extradition of narco-offenders. The Director Generals of Police (DGPs) were directed to make anti-narcotics drive the prime agenda of the police for the next three years, pointing out that the police station was the focal point of intelligence collection.

Stressing upon the need for all-round development in left-wing extremism affected areas, the Minister urged the DGPs to coordinate with State administrations to ensure the implementation of more than 300 Central and State development schemes at the grassroots level.

Rajasthan govt. announces ₹10 lakh each to kin of children killed in school roof collapse

The Hindu Bureau
JAIPUR

Amid demands for the resignation of State Education Minister Madan Dilawar, the Bharatiya Janata Party government in Rajasthan on Saturday announced an ex-gratia assistance of ₹10 lakh each to the next of kin of seven children killed in the school building collapse in Jhalawar district. One member of each family will also get a contractual job with the State government.

The bodies of six children were cremated together in Piplodi village, where a portion of the government school in which they were studying collapsed on Friday morning. The seventh child was cremated in Chandpura Bheelan village, situated nearby.

The police stopped Congress MLA from Khanpur, Suresh Gurjar, and student leader from Jaipur, Nirmal Choudhary, on the Kota-Jhalawar road when they were going to meet the injured students admitted to hospital. Another political leader, Naresh Meena, was detained when he staged a dharna outside the District Hospital in Jhalawar.

Gross negligence: Parents mourn the children who lost their lives in the Jhalawar school roof collapse, on Saturday. ANI

Panel to review safety

Chief Minister Bhajan Lal Sharma announced the formation of a permanent committee to review the safety of government schools, colleges, hostels and Anganwadi centres and to undertake the repairing of dilapidated buildings. He also announced an increase from 15% to 20% in the permissible allocation for these buildings in Dang, Magra and Mewat regions.

Mr. Sharma said at a high-level meeting here that a provision of ₹375 crore was made in this year's Budget for repairing of schools and construction of new school buildings, besides the release of ₹3 crore to each Assembly constituency for the purpose.

"The MLAs will also be entitled to recommend an expenditure of 20% of their annual allocation under the local area development fund in schools," Mr. Sharma said.

Civil rights groups in the State have termed Friday's mishap as an instance of "gross administrative negligence" and demanded the immediate resignation of Education Minister Mr. Dilawar. People's Union for Civil Liberties (PUCL)-Rajasthan president Bhanwar Meghwanshi said, "Mr. Dilawar's sole focus has been on communalising educational institutions."

The PUCL urged the State government to learn from the Piplodi accident and immediately conduct a comprehensive safety audit of all school buildings.

Safety audits must be done in schools, says Centre

Press Trust of India
NEW DELHI

The Ministry of Education has issued a directive to all States and Union Territories mandating them to conduct audits of safety mechanisms and facilities for children in schools, officials said on Saturday.

"States and UTs must take urgent steps to ensure student's safety and their well-being. This includes mandatory safety audits of schools and child-related facilities as per national safety codes, training for staff and students in emergency preparedness, and the provision of psychosocial support through counselling and peer networks," says the directive.

Cong. demands CBI-led, judge-supervised probe into 'organic cotton scam'

The Hindu Bureau
NEW DELHI

Alleging a "scam" worth over ₹2.1 lakh crore in the name of organic cotton in India, the Congress on Saturday demanded the formation of a Special Investigation Team led by the Central Bureau of Investigation under the supervision of a High Court judge.

The party said that the scam had severely harmed the global credibility of India's organic products.

Speaking at a press conference at the All India Congress Committee headquarters, senior Congress leader and former Chief Minister of Madhya Pradesh, Digvijaya Singh, alleged that certain traders were falsely labelling non-organic cotton as "organic" and earning six-fold profits, while genuine farmers struggled to get even the minimum support price. He added that the scam involved massive tax and GST evasion.

Digvijaya Singh

'Govt. aware of scam'

The Congress leader said that the government had been aware of irregularities in the certification process and the scam since 2017, but had not taken any strict action.

Mr. Singh explained that in 2001, the Ministry of Commerce and Industry launched the National Programme for Organic Production (NPOP), which is implemented by the Agricultural and Processed Food Products Export Development Authority. The goal is to certify and regulate organic exports. Under this programme, NPOP accredits certification bodies that verify Internal Control Systems (ICS). After ICS verification, a transaction certificate is issued, declaring the group as organic.

"Most farmers shown as registered in these ICS groups neither grow organic cotton nor are aware of their inclusion in the system. These ICS groups have deliberately committed fraud by including farmers' names to obtain transaction certificates," he said.

728 rounds of ammunition, 90 firearms and explosives seized from Imphal Valley

Press Trust of India
IMPHAL

Security forces on Saturday seized at least 90 firearms and over 700 rounds of ammunition and explosives from multiple operations across five districts of Manipur, the police said. A senior police officer said that several of the seized firearms were reportedly looted from police armouries after ethnic conflict erupted in the State in May 2023.

Acting on a tip-off, coordinated operations were launched simultaneously at multiple sites in Imphal East, Imphal West, Thoubal, Kakching, and Bishnupur districts, a police statement said.

Joint operation

During the operations by joint teams, comprising the Manipur Police, Central Reserve Police Force, Border Security Force, Army and Assam Rifles, 90 weapons, including three from the AK series, one M16 rifle, five INSAS rifles, one INSAS LMG, four SLRs, 20 pistols, four carbines, seven .303 rifles and eight other rifles, were seized.

"A total of 728 ammunition [rounds] and explosives, including 21 grenades and six IEDs, besides 21 magazines and 24 wireless handsets, were also seized," it said.

Seized booty: Security personnel with the arms and ammunition recovered during a joint operation in Manipur on Saturday. PTI

Miscreants had looted over 6,000 firearms from police armouries after ethnic violence broke out in the State on May 3, 2023. More than 3,000 of the looted firearms have been recovered, including over 1,500 after President's Rule was imposed in February.

Cong. accuses BJP of doing 'petty politics' in Justice Varma row

Opposition party cites Dhankhar to say notice for Justice Varma's removal was admitted in Rajya Sabha, countering reports to contrary

The Hindu Bureau
NEW DELHI

The Congress on Saturday accused the Bharatiya Janata Party (BJP) of doing "petty politics", ignoring Constitutional principles.

The party was referring to reports that the Opposition-backed notice in the Rajya Sabha for the removal of Justice Yashwant Varma, who faces allegations of corruption, had only been submitted and not admitted in the Upper House.

At a press conference, Congress spokesperson and Rajya Sabha member Abhishek Singhvi quoted former Rajya Sabha Chairman Jagdeep Dhankhar's July 21 statement in the House to argue that the notice, signed by 63 Opposition members, had been admitted by the Chair.

Mr. Singhvi further argued that the former Chairman's comments had made it clear that only a statutory committee of inquiry, under the Judges (Inquiry) Act, had to be formed after consulting with the Lok Sabha Speaker since an identical motion was submitted in the Lower House.

Mr. Singhvi accused the BJP of adopting double standard in its approach to judicial matters, particularly regarding Justices Varma and Shekhar Yadav, against whom the Opposition had moved a notice for removal.

"We are very concerned about this selective outrage and selective silence... This is typical BJP's double standard. The BJP's game of motions is less about law and more about optics... On judicial propriety, on anti-corruption movement and on judicial accountability, the BJP's mantra is talk the talk, never walk the walk. It is the worst example of hypocrisy on this entire episode," he said.

> This is the BJP's typical double standard. The BJP's game of motions is less about law and more about optics... On judicial propriety, on anti-corruption movement, and on judicial accountability, the BJP's mantra is talk the talk, never walk the walk

Rejection of widely held documents in SIR 'inconsistent, arbitrary': ADR

Krishnadas Rajagopal
NEW DELHI

The Association for Democratic Reforms on Saturday countered the Election Commission's refusal to accept Aadhaar, voter ID, and ration card as valid "standalone" proof for inclusion on the electoral roll during the special intensive revision (SIR) as "patently absurd".

In a rejoinder filed in a batch of petitions challenging the EC decision, the ADR, represented by advocates Prashant Bhushan and Neha Rathi, said any of the 11 documents listed by the commission for the verification of voters was equally prone to fraud.

On July 10, the Supreme Court had asked the commission to consider these three documents for the SIR, reasoning that they formed the foundational records to obtain any of the 11 documents, including residence and caste certificates, listed. The EC justified that Aadhaar, the elector photo identity card, and the ration card could easily be faked.

"It is pertinent to note that the 11 documents included in the approved list are equally susceptible to being procured on the basis of fake or false documentation, thereby rendering the EC's rationale baseless, inconsistent and arbitrary," the NGO's rejoinder said.

A booth-level officer checks documents for the revision of electoral rolls at Kamalpur village in Bihar. ANI

The NGO referred to data in the EC's affidavit detailing the expansive coverage of the 11 eligibility documents, including 13.89 crore residence certificates and 8.72 crore caste certificates issued from 2011 to 2025.

"It is interesting to note that the same far exceeds the total number of electors in the electoral rolls. If residence certificates can be accepted as eligibility proof of SIR 2025, despite their total number exceeding Bihar's current aggregate population, there is no reason why ration cards should be rejected as a document on the grounds of being prone to forgery," the NGO argued.

It said Aadhaar was accepted as proof for obtaining several of the 11 eligibility documents, including a permanent residence certificate, Other Backward Class (OBC)/Scheduled Caste (SC)/Scheduled Tribe (ST) certificate, and passport. "This makes the EC's rejection of Aadhaar, which is the most widely held document, patently absurd," the rejoinder said.

The EC had filed a counter-affidavit on July 21 claiming plenary powers to conduct the SIR and the authority to determine citizenship. It said a large portion of the population in Bihar already possessed one or more of the 11 documents.

The NGO countered a claim by the EC that political parties were fully backing the SIR.

"Not a single political party had asked EC for a *de novo* exercise such as the one prescribed in the instant SIR order. The concerns were on the issue of addition of non-existent votes, and deletion of genuine votes supporting the Opposition parties, and on the issue of casting of votes after closure of polls... the EC's counter affidavit fails to substantiate or justify the necessity of the SIR in Bihar, or the broader push for a nationwide citizenship verification of electors," the NGO said.

It said people whose names are not found in the draft electoral roll for Bihar would not have the time to file appeals, prove their citizenship, and get re-enrolled in time for the Bihar Assembly election.

Cong. must shift focus to Gujarat, says Rahul Gandhi

The Hindu Bureau
AHMEDABAD

In a sharp political pitch from Prime Minister Narendra Modi's home turf, Congress MP and Leader of the Opposition in the Lok Sabha Rahul Gandhi on Saturday called the Election Commission (EC) a "biased umpire". He stressed that defeating the Bharatiya Janata Party (BJP) in its base in Gujarat, which is also Union Home Minister Amit Shah's stronghold, was critical for the party's national resurgence.

Addressing newly appointed District Congress Committee (DCC) presidents at a training camp, Mr. Gandhi said the Congress must shift its focus from just Uttar Pradesh or Bihar to Gujarat if it aims to defeat the BJP across the country.

The training camp is part of the Congress's preparations for the 2027 Gujarat Assembly election. It follows the appointment of new DCC chiefs across the State and will conclude on July 28.

Surendranagar Congress president Naushad Solanki quoted Mr. Gandhi as saying, "We believed we must work hard in U.P. and Bihar to defeat the BJP. But Rahul*ji* told us: if you defeat the BJP in Gujarat, it can be defeated everywhere."

Mr. Gandhi also accused the EC of playing unfairly. "In cricket, if you keep getting out, you start doubting yourself. But then you realise, it's the umpire who is biased," Mr. Solanki quoted him as saying.

Newly appointed Gujarat Congress president Amit Chavda said that Mr. Gandhi had assured the cadre that the party leadership stood firmly with them. "He guided the district presidents and assured them that their inputs would be considered during candidate selection," he said.

17 MPs named for Sansad Ratna Awards for performance in LS

Press Trust of India
NEW DELHI

Seventeen Members of Parliament – including Supriya Sule (Nationalist Congress Party-Sharadchandra Pawar), Ravi Kishan (Bharatiya Janata Party), Nishikant Dubey (BJP), and Arvind Sawant (Shiv Sena (Uddhav Balasaheb Thackeray) – have been selected for the Sansad Ratna Awards, 2025 for their exemplary performance in the Lok Sabha.

The honours also include four special jury awards, recognising their consistent contributions to parliamentary democracy across three successive terms.

The special awards have been conferred on Bhartruhari Mahtab (BJP, Odisha), N.K. Premachandran (Revolutionary Socialist Party, Kerala), Supriya Sule (NCP-SP, Maharashtra), and Shrirang Appa Barne (Shiv Sena, Maharashtra). All of these leaders have maintained top performance since the 16th Lok Sabha.

The award-winning MPs include Smita Uday Wagh (BJP), Naresh Mhaske (Shiv Sena), Varsha Gaikwad (Congress), Medha Kulkarni (BJP), Praveen Patel (BJP), Bidyut Baran Mahato (BJP), and Dilip Saikia (BJP), among others.

In the committee category, the Standing Committee on Finance, chaired by Mr. Bhartruhari Mahtab, and the Standing Committee on Agriculture, chaired by Dr. Charanjit Singh Channi (Congress), were recognised for the quality of their reports and contributions to legislative oversight.

Tej Pratap Yadav to contest Bihar Assembly polls as Independent

The Hindu Bureau
PATNA

Tej Pratap Yadav, who is the elder son of Rashtriya Janata Dal (RJD) chief Lalu Prasad, announced on Saturday that he would contest the upcoming State Assembly election from the Mahua constituency in Vaishali district as an Independent candidate.

In the 2020 Assembly polls, Mr. Tej Pratap Yadav had won on RJD ticket from the Hasanpur Assembly constituency in neighbouring Samastipur district, and before that, in 2015, he was elected from the Mahua Assembly constituency.

Tej Pratap Yadav

After being mired in a controversy recently over a relationship with a girl in a video post, he was expelled from the party and ousted from the family by his father.

Since then, he has been mulling over contesting the upcoming Assembly poll as an Independent candidate.

While speaking to pressmen in Patna, Mr. Tej Pratap Yadav also announced that Nitish Kumar would not be the Chief Minister again after the election.

Frequent disruptions in Parliament harm Opposition, says Rijiju

Press Trust of India
NEW DELHI

Parliamentary Affairs Minister Kiren Rijiju on Saturday said that frequent disruptions in the House hurt the Opposition more, as they lost the crucial opportunity to hold the government accountable.

The remarks came after the first week of the ongoing Monsoon Session was largely washed out by repeated protests by Opposition MPs.

"Officers are relieved when Parliament doesn't function because they escape the grilling. When the House runs, Ministers face tough questions. When it adjourns within minutes, those questions don't even get raised," he said.

"Those who stall the House think they are damaging the government, but in truth, they are weakening their own role in a democracy," he added.

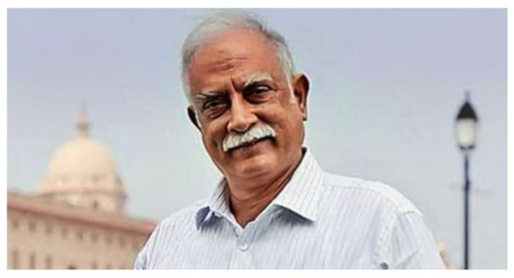
INBRIEF



Ashok Gajapathi Raju takes oath as Goa Governor

Former Union Minister for Civil Aviation and veteran politician Pusapati Ashok Gajapathi Raju was sworn in as the 22nd Governor of Goa on Saturday, replacing P.S. Sreedharan Pillai. The swearing-in ceremony was held in the Raj Bhavan at Dona Paula, Goa. Chief Justice of the Bombay High Court Alok Aradhe administered the oath of office to the new Governor. Chief Minister Pramod Sawant and other dignitaries were present at the ceremony. A veteran Telugu Desam Party (TDP) leader from Andhra Pradesh, Mr. Raju served as the Civil Aviation Minister between May 27, 2014, and March 10, 2018.

Interim compensation paid to 166 families, says Air India

Private carrier Air India on Saturday said it had paid interim compensation to the families of 166 victims of the Ahmedabad plane crash last month. Besides, payment to the families of another 52 victims is in the process, it added. The plane crash involved a Boeing 787-8 Dreamliner operating as Air India flight AI171. On June 14, Air India announced that it will provide an interim compensation of ₹25 lakh to the families of each of the deceased and survivors of the Ahmedabad plane crash to help address immediate financial needs. The interim payment will be adjusted against any final compensation, the Tata Group airline clarified. PTI

4 Maoists killed in encounter with security forces in Bijapur

Security forces have gunned down at least four Maoists in an ongoing operation in Chhattisgarh's Bijapur, the police said on Saturday. "So far [update issued at 7 p.m.], four bodies have been recovered in the ongoing exchange of fire between security forces and Maoists in Bijapur district. A huge quantity of weapons, including INSAS and SLR rifles, has been recovered from the spot," a police statement said. It added that as the operation was still in progress, details such as the exact location and the troops involved in the operation could not be shared to ensure the safety of the personnel involved.

Fishing boat capsizes off Alibaug coast, three missing

Three fishermen went missing after a boat carrying them and five of their colleagues capsized in the Arabian Sea in Raigad district of Maharashtra on Saturday morning, triggering a multi-agency search operation, the police said. The incident occurred around 8.30 a.m. off Khanderi when the boat from Karanja in Uran had gone for fishing in the sea near Alibaug, an official said. Due to heavy rain and rough weather, the boat toppled and started sinking, prompting the fishermen to jump into the water and start swimming to save themselves, he said. Of the eight fishermen on board the boat, five swam to the Alibaug coast, but three remained missing, he said. PTI

'Targeting of Bengali-speakers in BJP-ruled States must stop'

West Bengal CM calls the development a 'shame' and adds that now even international human rights organisations have started taking note 'of the linguistic terrorism unleashed in India'

Shiv Sahay Singh
KOLKATA

Highlighting that the Human Rights Watch (HRW), an international human rights organisation, has raised the issues of harassment, persecution, and illegal deportation of Bengali-speaking people of India by the BJP governments in various States, West Bengal Chief Minister Mamata Banerjee on Saturday said that such targeting should stop at once.

She called the development a "shame", and said that now even international human rights organisations had started taking note "of the linguistic terrorism unleashed in India".

Taking to social media, Ms. Banerjee said the human rights organisation had released a report saying what she had been saying: Bengali-speaking Indians (of different castes and communities) were being arbitrarily abused and pushed out in a concerted manner by the BJP establishment.

Three persons who were allegedly detained by the Odisha Police on suspicion of being Bangladeshi nationals and later released. ANI

'Arbitrary expulsion'

"Elaine Pearson, Asia Director at HRW, has on record said, BJP is fuelling discrimination by arbitrarily expelling Bengalis from the country, including Indian citizens. The authorities' claims that they are managing irregular migration are unconvincing," the Trinamool Congress chairperson has said.

Citing HRW, Ms. Banerjee said the international NGO reported that the targeting of migrants was happening systematically in the BJP-ruled States of Assam, Gujarat, Maharashtra, Rajasthan, Uttar Pradesh, Odisha, and Delhi, following a directive by the Union Home Ministry.

The remarks by the Trinamool Congress chairperson come amid calls given by her to start a "language movement" to protest against targeting of migrants from West Bengal in BJP-ruled States. There have been reports of migrants from West Bengal being detained in Odisha, Haryana and Delhi on suspicion of being Bangladeshi nationals. Some migrant workers from the State have been pushed into Bangladesh.

Police launch workers' helpline

The West Bengal Police have started a helpline for workers to seek assistance in case of any harassment. In a social media post on X, the police said workers or their family members can send a message with their name, address and details of the issue on WhatsApp to 9147727666. The information will be verified and action taken in coordination with other State authorities, the police said.

Bengal BJP to launch protest for 'Bengali Hindu homeland'

Moyurie Som
KOLKATA

As the Trinamool Congress stepped up its campaign over the reported attacks on Bengali migrant workers in other States, the Bharatiya Janata Party (BJP) has intensified its rhetoric on "Bangladeshi and Rohingya infiltrators", with Leader of the Opposition in the West Bengal Legislative Assembly Suvendu Adhikari announcing that he would take to the streets to demand a "Bengali Hindu homeland".

"I will take to the streets after August 15 to demand a West Bengal free of Rohingya and Bangladeshi infiltrators, as was imagined by Syama Prasad Mookerjee as the Bengali Hindu homeland," Mr. Adhikari told local presspersons on Saturday.

Reiterating his demand for a special intensive revision (SIR) of the electoral rolls in West Bengal, on the lines of a similar exercise in Bihar, the BJP MLA alleged that several Muslim families in the State had married Bangladeshi Muslim women they met on social media, and they were subsequently issued "false Aadhar and EPIC cards" by the State government.

"Many of these Bangladeshi women stayed back with or without visas thanks to Mamata not fencing 540 km of our border. If 50 lakh voters are dropped in Bihar, 1 crore 25 lakh Bangladeshi Muslims and Rohingya will get dropped in West Bengal," Mr. Adhikari said.

He alleged that the State government had directed district authorities to issue large numbers of domicile certificates.

'Hindus facing harassment'

West Bengal Leader of the Opposition Suvendu Adhikari said that Hindus in West Bengal were frequently harassed by the police. "If you have been harassed by the police, please feel free to inform me with details via adhikarisuvenduwb1@gmail.com," he posted on social media, also seeking information on illegal immigrants and infiltrators.

Foreigners' Tribunals in Assam disregard constitutional safeguards, says NLSIU report

Rahul Karmakar
GUWAHATI

The quasi-judicial Foreigners' Tribunals (FTs) in Assam have become routine instruments of exclusion by disregarding due process and constitutional safeguards, a comprehensive study of these tribunals and the broader legal crisis of India's citizenship adjudication has found.

The report by the Bengaluru-based National Law School of India University (NLSIU) and the Queen Mary University of London, to be formally released on Sunday, called for an urgent, fundamental rethinking of the legal structures governing citizenship in India given the possibility of an Assam-like exercise to update the National Register of Citizens (NRC) across the country.

In this 2019 photo, people wait at the Foreigner's Tribunal office in Barpeta in Assam. The State currently has 100 FTs. AP

Titled "Unmaking citizens: the architecture of rights violations and exclusion in India's citizenship trials", the report has been authored by Mohsin Alam Bhat of Queen Mary University, Arushi Gupta, and Shardul Gopujkar, with the support of researchers and law students from the NLSIU, and members of Parichay Legal Aid Clinic. "As of 2025, Assam's tribunals have declared nearly 166,000 people as 'foreigners'. In addition to more than 85,000 pending cases, these tribunals may also soon hear more than a million appeals from those excluded from the NRC," Mr. Bhat said. The report analyses more than 1,200 Gauhati High Court orders, key Supreme Court judgments, and extensive interviews with lawyers and litigants. It documents "widespread arbitrariness in decision-making, including the wholesale rejection of documentary and oral evidence, and the absence of legal norms to protect individuals from wrongful targeting".

Lacks legal foundation

"Citizenship adjudication engages constitutionally significant questions with profound consequences, including the risk of statelessness. Such determinations require bodies that are legally constituted, independent, impartial, and composed of competent legal officers," the study summarises in a chapter on "institutionalised arbitrariness".

The report argued that the FT system fails on all these counts. "It lacks a secure legal foundation, is vulnerable to executive interference, and is staffed by inadequately qualified adjudicators. It thus stands in stark violation of the rule of law and the right to an effective remedy under both domestic and international law," it said.

Assam currently has 100 FTs, each headed by a judge-like member, which were formed after the Supreme Court scrapped the controversial Illegal Migrants (Determination by Tribunals) Act of 1983 in 2005. Of these 100 tribunals, 36 are permanent and 54 require periodic extension of terms from the Ministry of Home Affairs.

India issues advisory amid border clashes in Cambodia

Press Trust of India
PHNOM PENH

India on Saturday advised its citizens in Cambodia to avoid travelling to border areas as the clash between Thailand and Cambodia over a disputed border entered its third day.

The flare-up, which began on Thursday, has killed at least 32 people – 19 in Thailand and 13 in Cambodia, according to reports.

"In view of the ongoing clashes at the Cambodia-Thailand border, Indian nationals are advised to avoid travelling to the border areas," the Indian embassy said in a post on X.

Indian citizens have been urged to contact the mission in case of any emergency at +855 92881676.

Two half-dose combination of drugs right for BP control in Indians: study

Ramya Kannan
CHENNAI

With evidence lacking thus far for guiding optimal combination hypertension therapy in South Asian patients, a recent study has recommended half doses of two drugs in a single pill combination right from starting treatment for hypertension.

The paper, "Comparison of dual therapies for hypertension treatment in India", published in the journal *Nature Medicine*, investigated the blood pressure (BP)-lowering efficacy and safety of three commonly recommended anti-hypertensive combinations in a single pill in a multi-centre trial across 32 sites in India. Nearly 2,000 adults with uncontrolled or untreated hypertension were studied and interventions included three single pill dual combinations – amlodipine with perindopril, perindopril with indapamide, and amlodipine with indapamide.

Around 2,000 adults with uncontrolled BP were studied and the interventions included three pill combinations. ISTOCKPHOTO

All three combinations, in patients aged 30-79, delivered equivalent reductions in BP and similar rates of BP control, researchers said. All combinations were equally safe and effective with high tolerability over six months, they wrote in the paper.

"It must be noted that we are not recommending a multi-drug regimen. Polypharmacy will only lead to discontinuation of treatment," says Prabhakaran Dorairaj, principal investigator of the study, from the Centre for Chronic Disease Control, New Delhi. "What we are recommending is to start with half doses of two drugs in a single pill combination. If BP control does not happen, then it is important to titrate to full doses. Despite this, if BP continues to be higher than 140/90, then additional drugs are to be added," he explains. "It is really astounding we have been basing treatment on Western guidelines, so far," Dr. Prabhakaran adds. This study tests the global guidelines for hypertension treatment among patients in India, since these combinations are already available here. These drugs work through multiple pathways and are synergistic, with low side effects, he says.

"Many physicians, even cardiologists, think that they should start with a low dose and then keep escalating it," says Nagendra Boopathy, co-author, and interventional cardiologist, Sri Ramachandra Medical Centre, Chennai. "Even patients are reluctant to start on drugs, but these combinations we have tested are really effective in bringing down BP, and the side effects are minor," he adds. The side effects observed during the trial included cough, swelling of feet and lower potassium in some sub-groups, and not statistically significant.

Dr. Prabhakaran adds: "The biggest problem in India is poor control of hypertension. Only around 20% of individuals with hypertension are treated to target in urban areas and it is even lower in rural areas."

HC sets three-month deadline for setting sample standards

Soibam Rocky Singh
NEW DELHI

In a move that could significantly improve diagnostic accuracy and patient safety, the Delhi High Court has directed the Union government to notify long-pending minimum standards in the collection of medical samples or specimens by laboratories and collection centres, and guidelines to transport them, within the next three months.

The order, if implemented, could help curb inaccuracy in test reports, especially when the samples are collected from the home of a patient, experts said. It could also reduce unsafe handling of biological specimens, and treatment errors caused by degraded samples, potentially saving lives, they added.

Currently, India lacks specific regulations governing how medical samples, such as blood, urine, or swabs, are collected, stored, and transported to diagnostic laboratories. This regulatory gap has led to widespread inconsistencies, particularly with private labs and home sample collection services that operate without strict oversight.

"Patients often assume their test results are scientifically reliable. But when samples are exposed to extreme heat or delayed in reaching the lab, the entire result can become invalid – without anyone realising it," Dr. Rohit Jain, who had filed a public interest litigation (PIL) plea on the issue in 2019, said. "Wrong results lead to wrong treatment. That's not just unethical – it's dangerous," he said. The court, while hearing Dr. Jain's plea on July 18, recorded the Union Health Ministry's assurance that the draft minimum standards, which the Ministry said had already been approved by the Directorate General of Health Services, were in advanced stages of being notified.

'U.K.-India FTA may work in favour of patent owners'

Certain intellectual property and regulatory clauses may delay or limit the production of life-saving generics, impacting patients in India and across the Global South, warn experts

Bindu Shajan Perappadan
NEW DELHI

The U.K.-India Free Trade Agreement has provisions on patents that tilt the balance in favour of patent owners and undermines access to medicines, experts said at a discussion on the agreement's implication for access to medicines.

Expressing concern over provisions in the recently-signed agreement that could impact access and affordability of medicines in India, they noted that certain intellectual property (IP) and regulatory clauses may delay or limit the production of life-saving generics, impacting patients in India and across the Global South. "There is a progressive movement towards accepting the demands of FTA partners, which systematically debase public interest safeguards available in the Indian Patents Act," warned Biswajit Dhar, former professor, Centre for Economic Studies and Planning, Jawaharlal Nehru University.

He explained that the preference on voluntary licenses leaves the access to medicines in the hands of market forces and undermines the role of the government in facilitating access to medicines.

"Often voluntary licenses contain onerous conditions on the licensee and fail to bring sharp price reductions compared with the compulsory licenses," he said. He further said that under the Indian Patents Act, every year, the patent holder must submit details of working of patents in India.

The annual submission information will now be submitted once in three years and the confidential information contained in the submission shall not be made available in the public domain.

"This effectively compromises the ability of potential compulsory license applicants to prove unmet demands, which constitute a ground for compulsory license. It clearly tilts the balance heavily in favor of pharmaceutical transnational corporations allowing them to easily get away by hiding the denial of access to medicines due to high prices on access," said Jyotsna Singh, co-convenor of the working group on Access to Medicines and Treatment. "There are also provisions in the IP chapter which can potentially undermine the safeguards preventing evergreening of patents," said K.M. Gopakumar, another co-convenor of Working Group on Access to Medicines and Treatment, adding that though couched in best endeavor language there are provisions that "facilitate the sharing and use of search and examination work of the parties."

Alarm bells

Some provisions in the recently-signed agreement could impact access, affordability of medicines in India, caution experts

- Preference on voluntary licenses leaves access to medicines in the hands of market forces
- It also undermines the role of the government in facilitating access to medicines
- Voluntary licenses often contain onerous conditions on licensee, fail to bring sharp price cuts

'Weakens safeguards'

The implementation of this provision would lead to the harmonisation of patentability criteria and undermine safeguards against evergreening such as Section 3 (d) of the Indian Patents Act," he said.

However, Sanjaya Mariwala, executive chairman and MD of OmniActive Health Technologies said that India's exports to the U.K. had gone up by 12.6% last year, and the deal would provide a chance to build on that growth.

"But it's not just about trade volumes—what stands out is the scope it opens-up in healthcare. With regulatory barriers coming down, Indian healthcare companies will find it easier to operate in the U.K., and that can lead to more affordable services and better collaboration between the two systems.

That's a space worth watching. At the same time, we can't lose sight of the fact that Free Trade Agreement (FTAs) only work well when businesses at home are strong. As more of these agreements are signed, we need to back our local entrepreneurs and MSMEs with the right support—finance, infrastructure, policy clarity," he said.

"The India-U.K. FTA, by formalising zero duty access for nearly 99% of Indian pharmaceutical and medical device exports, provides long-term clarity and a much-needed boost for the Indian pharmaceutical industry.

With the U.K.'s pharma market projected to grow from about $45 billion now to $73 billion by 2033, and India's generics segment already crossing $910 million in exports in FY24, this agreement will strengthen India's presence in U.K. drug stores and broader supply chains. For niche, high quality manufacturers that align with global standards, this is truly a game-changer," said Bhavin Mukund Mehta, director, Kilitch Drugs.

'Tariff risks and geopolitical shifts call for supply chain reset'

Persistent disruption is setting the stage for supply chain diversification,: Allcargo founder

INTERVIEW

Shashi Kiran Shetty

Lalatendu Mishra

As the world is grappling to deal with geopolitical realignments and tariff risks leading to global supply chain disruptions, a new order is emerging in which India would gain from this realignment, says Shashi Kiran Shetty, Founder & Chairman, Allcargo Group.

How do you view the prevailing global supply chain scenario on the back of a tariff war and geopolitical realignments?

The global supply chain landscape remains volatile on the back of ongoing geopolitical shifts and economic uncertainties, particularly in Europe. The tariff war had posed a significant threat to trade flows, but recent signs of de-escalation, especially the progress in U.S.-China trade talks offer some respite. Nevertheless, the persistent disruption is setting the stage for supply chain diversification. Companies are reassessing their sourcing strategies and India stands to gain from this realignment. Tariff risks, changing global trade dynamics and geopolitical realignments call for a supply chain reset. Having said that, despite volatility, there are early signs of stabilisation, offering cautious optimism for stable global trade dynamics.

What were the challenges in turning around Gati?

After acquiring the controlling stake in Gati in 2020, we focussed on a strategic overhaul which included technology upgrades and cost optimisation. Our core focus areas included infrastructure, digitisation, sales acceleration, talent pool creation and operations. The goal was to align the company with the Group's common culture and values. By strengthening the leadership team, reducing debt by divesting non-core business, developing cloud-based Gati Enterprise Management System or GEMS 2.0, rationalising resources, expanding shipment hubs and adopting sustainable mobility, we have created a path to sustained growth for Allcargo Gati.

INBRIEF

IRDAI slaps ₹3.39 cr. penalty on Star Health Insurance

The Insurance Regulatory and Development Authority of India has imposed a penalty of ₹3.39 crore and issued a warning to Star Health and Allied Insurance Company for violations under IRDAI Information & Cyber Security Guidelines, 2023. The regulator, however, did not elaborate on the violations in its July 25 communication. Star Health said the penalty has been levied with respect to certain aspects pertaining to safeguard of data and cyber security.

Kotak Mahindra Bank Q1 net profit falls 7% to ₹3,282 crore

Kotak Mahindra Bank reported a 7% decline in Q1 standalone net profit to ₹3,282 crore from ₹3,520 crore in the year-ago period excluding gain of Kotak General Insurance (KGI) divestment. Net interest income increased to ₹7,259 crore, up 6% YoY from ₹6,842 crore. Net interest margin was 4.65% for Q1FY26, the bank said in a filing. Consolidated net profit increased to ₹4,472 crore, up 1% YoY from ₹4,435 crore excluding gain of KGI divestment in Q1FY25.

IDFC First Bank Q1 net profit slumps 32% to ₹463 crore

IDFC First Bank reported a 32% fall in Q1 net profit to ₹463 crore from the same period last year largely impacted by microfinance business and interest rate movement. Net interest income grew 5.1% YoY from ₹4,695 crore to ₹4,933 crore. Net interest margin on AUM reduced by 24 bps QoQ, from 5.95% in Q4FY25 to 5.71% in Q1FY26, largely due to repo impact, asset mix change (including sharp decline in the micro-finance business) and decline in investment yields.

Software developers at risk as AI may eat up coding jobs

'AI tools are capable of writing codes, providing real time suggestions and even writing full functions on simple prompts'

Mini Tejaswi
BENGALURU

Tech India is witnessing a transformational shift, with its bellwethers currently busy deploying their AI-first strategy to nurture increased human+AI collaborations at their workplaces.

This means a few unpleasant things for the software developer community: most of the low-hanging, also some of the not so low-hanging coding jobs will go to their AI colleagues; AI will make some developers and their current contribution to coding fully redundant; developers will need to adapt and learn how to work with their AI partners. However, AI has the potential to free up developers from boring, repetitive tasks, allowing them to focus on deep-coding, for complex, intelligent and creative projects.

Lead tech players have been quite vocal about their focus on human+AI play, more so in the last couple of months, signalling an impending shift in the tech talent space.

Interestingly, both Wipro and Infosys recently announced the deployment of 200 AI agents each on certain functions to free up people.

"Given the transformational and disruptive capacity of AI, organisations no longer require an army of coders, most of them with low single digit experience in software development. The immediate impact we are seeing is the reduction in intake of junior level talent, and shrinking in size of project teams," said Muthu Kumaran, Operating Partner and Head of India Operations, Recognize, a U.S.-based private equity firm.

Dr. Vikas Khare, Associate Dean School of Technology, Management and Engineering, NMIMS, at Indore said, many repetitive and template coding chores, including bug fixes, basic HTML/CSS web construction, basic CRUD operations, boilerplate generation, and test case writing, were currently being automated by AI.

Neeti Sharma, CEO, TeamLease Digital, said many AI tools were capable of writing codes, providing real time suggestions and even writing full functions on simple prompts, and therefore many junior developer roles such as web or mobile app development, testing and documentation would be replaced by AI in the next few years.

Flip side

However, she said, any kind of coding that involved creative problem-solving, strategic design, and understanding complex user needs is likely to remain human-centric. Developers would evolve into supervisors and collaborators who focus on strategic decisions, ethical considerations, domain-specific logic, security planning and creative problem-solving that AI cannot replicate, said experts.

NephroPlus to raise ₹353.4 crore via IPO

The Hindu Bureau
HYDERABAD

Dialysis services provider Nephrocare Health Services, better known by its NephroPlus brand, has filed draft red herring prospectus (DRHP) with SEBI to raise funds through an initial public offering (IPO).

The IPO proposed by the Hyderabad based company will be a combination of a fresh issue of equity shares aggregating up to ₹353.4 crore and an offer for sale (OFS) of nearly 1.28 crore equity shares by the selling shareholders.

'India-U.K. FTA a game changer for trade'

The Hindu Bureau
NEW DELHI

Terming the India-U.K. Free Trade Agreement (FTA) a 'game changer', Commerce Minister Piyush Goyal said that the Indian government had ensured the protection of all sensitive sectors of the Indian economy, while benefiting every section including farmers and the MSME sector. Addressing a press conference at the BJP headquarters here on Saturday, Mr. Goyal also said that trade talks with the U.S. and Oman were continuing apace.

Piyush Goyal

"With this [India-U.K. FTA], India would be able to ship 99% of its exports to U.K. duty-free," he said.

The Minister asserted that the agreement was signed with the U.K. "confidently" on India's terms while protecting "sensitive items" like agriculture and ethanol.

"I believe that this FTA carries a very big message for the future economy of India. We will all see the benefits that India will get under it in the coming years," he said. Mr. Goyal added that the agreement will open doors for India to the developed world.

Karnataka Power Transmission Corporation Limited
(CIN : U40109KA1999SGC025521)

BRIEF SHORT-TERM TENDER NOTIFICATION
(THROUGH KARNATAKA PUBLIC PROCUREMENT PORTAL ONLY)

No. CEE/T&P/SEE-1/2025-26/3729-41 Date: 25.07.2025

Karnataka Power Transmission Corporation Limited invites Bids on electronic mode for the following Works against the following Enquiry Number on **Partial Turnkey Basis.**

Sl. No.	Bid Enquiry No. / Name of the Works
1.	**KPTCL/2025-26/SS/WORK_INDENT2464** **Combined Package of the following works:** **Work-A:** Establishing 1x20 MVA, 110/33 kV and 2x20 MVA, 110/11kV substation at **Nekkilady** and construction of 110kV LILO line using Lynx conductor from existing 110kV Puttur-Karaya line to the proposed 110/11kV substation at Nekkilady for a distance of **0.03km** in Puttur Taluk, Dakshina Kannada District. **Work-B:** Establishing 2x20MVA, 110/11kV Sub-station at **Kuthlur** and Construction of 110kV LILO line on DC Towers using Lynx Conductor from one circuit of existing 110kV Kemar-Guruvayanakere DC line (on MCMV towers) to proposed 110/11kV Sub-station at Kuthlur for a distance of **0.362km** in Belthangady Taluk, Dakshina Kannada District. **Work-C:** Providing alternate source to 66/11kV **Hulimangala** Substation by running of 66kV, 1000Sq.mm single circuit UG Cable from 66/11kV Hulimangala substation to 66/11kV Electronic City (Velankani) Sub-station for a distance of **4.145kms** with associated 66kV Terminal Bay's at 66/11kV Hulimangala and Electronic City (Velankani) Sub-stations in Anekal Taluk, Bengaluru Urban District. **Work-D:** Running of 66kV 1000Sq.mm Single Circuit UG cable from existing 220/66/11kV **Brindavan Alloys** sub-station to existing 66/11kV **Byadarahalli** Sub-station for a route length of **6.170kms** and connecting existing 66kV OH HTLS line from SRS Peenya directly to the outgoing 66kV Drake line of 66kV Byadrahalli-Kodigehalli - Tavrakere - V.G.doddi - Magadi line in Bengaluru North taluk, Bengaluru Urban District.

The bids will be received through electronic tendering mode only. The details regarding participation in the e-tendering process can be obtained by logging on to KPTCL website: **https://kptcl.karnataka.gov.in** with hyperlink **"E Procurement KPTCL"** or **https://kppp.karnataka.gov.in** on or after **28.07.2025 @ 15:00hrs.** Last date & time for receipt of Bids is **07.08.2025 @ 15:00hrs. Any extension of Due date for Bid submission will be intimated in the Karnataka Public Procurement Portal.** Any details required in this regard can also be obtained from the Office of the undersigned during Office hours.

All Corrigendum/Addendums shall be noticed by the bidders before the last date of submission of the Bids.

Sd/- Chief Engineer, Electy.,
Tendering & Procurement, KPTCL,
3rd Floor, Kaveri Bhavan, Bengaluru – 560 009.

DEPARTMENT OF BIOTECHNOLOGY
MINISTRY OF SCIENCE AND TECHNOLOGY
GOVERNMENT OF INDIA

DBT - BIOTECH INDUSTRIAL TRAINING PROGRAMME (BITP) 2025-26 UNDER SKILL VIGYAN

Applications are invited from bonafide Indian citizens residing in India for hands-on training in Industry. The programme provides excellent opportunity to biotech/bioinformatics students who have completed their education and intend to start their career in Industry to acquire practical skills and experience working on projects alongside industry experts as well as an opportunity to industry to identify potential candidates for their human resource requirements. The training will be for six months during which stipend will be paid to trainees and bench fee of **@ Rs. 23,350/-**per candidate will be paid to companies to cover the expenses towards training. The program is being implemented by DBT-HRD Project Management Unit at Regional Centre for Biotechnology (RCB), Faridabad on behalf of Department of Biotechnology.

ATTN: BIOTECHNOLOGY INDUSTRY

Requisitions are invited from companies operating in areas of biotechnology & life sciences including Drugs & Pharmaceuticals, Diagnostics, Agri-Biotechnology, Biomedical, Environmental, Industrial Biotechnology, Therapeutics, Genomics & Proteomics, Bio-services, Veterinary, Bioinformatics and Computational Biotechnology, Contract research & manufacturing, Intellectual property, Food industry etc. interested to provide hands-on training for six months. The companies will also have to pay the stipend to the trainees as per the apprenticeship norms in addition to stipend paid by DBT. **'Requisition Form'** can be downloaded from RCB website **(https://rcb.res.in/DBTBITP/). Duly filled and signed 'Requisition Forms' shall be submitted to bitp.dbt@rcb.res.in.**

ATTN: BIOTECHNOLOGY STUDENTS

Eligibility: Students with B.E/B.Tech/M.Sc./M.Tech./M.VSc./MBA in Biotechnology/ Bioinformatics and students admitted under DBT PG teaching program in Biotechnology. The degree should be from an Indian recognized university with a minimum of 50% marks or equivalent grades completed in year 2022-23, 2023-24 or 2024-25.

Mode of Selection: Candidates will be selected based on computer based test conducted in multiple city/centers across the country. Selection would be subject to meeting the eligibility criteria. Trainer company would be provided subject to availability.

Mode of Application: Candidates may apply online by visiting website **https://bitp25.onlineapplicationform.org/BITP/**. Detailed information on filling the application form, payment of application fee and uploading of required documents/ certificates in the prescribed format is given on the website.

Stipend structure: DBT will disburse a stipend @ Rs. 10,000/- per candidate per month upon successful completion of six months of training and assessment. Students will also get a minimum stipend of Rs. 9,000/- per month from trainer companies for the period of training, as per apprenticeship norms.

Certification: After completion of training, trainees will have to undergo an online 'Assessment' conducted by Sector Skill Council. Trainees who will qualify the Assessment will be awarded 'Apprenticeship Certificate' under National Skill Qualification Framework (NSQF) by Sector Skill Council.

Important Dates

S. No	Events	Dates
1.	Start date for submission of online applications	25th July 2025
2.	Closing date for submission of online applications	24th August 2025
3.	Period of training	Six months from date of joining

Note: In case of any query, please send email to bitp.dbt@rcb.res.in

Altermagnet's charge carriers change in different directions

The Hindu Bureau

Some materials conduct electricity mainly with one kind of charge-carrier everywhere: either negative electrons (*n*-type) or positive 'holes' (*p*-type). A rare class can breach this behaviour depending on direction, a feature called direction-dependent conduction polarity (DDCP). That is, it can conduct with electrons in one direction and holes in another. Such materials could act as both *n*- and *p*-type parts of a circuit or a thermoelectric device without needing two different crystals.

However, only a handful of such materials have been found thus far, and most of them are hard to make or unstable.

A study by researchers at the S.N. Bose National Centre for Basic Sciences and the Indian Association for the Cultivation of Science, both in Kolkata, has reported that the inexpensive and stable magnetic compound chromium-antimony (CrSb) also belongs to this elite group.

The researchers grew single-crystal plates of CrSb in sealed quartz tubes using chemical-vapour transport.

Then they measured the Hall effect and the Seebeck effect along the length and breadth of the crystal.

The Hall effect shows how a magnetic field bends moving charges, revealing whether electrons or holes dominate.

In the Seebeck effect, a voltage appears when one side of the crystal is warmed and switches sign between electrons and holes. Both effects revealed that along the plane of the crystal, electrons dominated whereas holes took over along the vertical axis. This behaviour proved that CrSb exhibited DDCP.

First altermagnet

CrSb is thus the first altermagnet, a recently discovered type of magnet, that displays DDCP.

Its easy synthesis, composition of abundant elements, and switchable polarity make it a promising platform for future electronics and thermoelectrics, where a single crystal can act as both halves of a *p-n* pair, and for spintronic devices.

In altermagnets, the minuscule magnetic moments, or spins, of atoms are arranged in a pattern where they cancel each other out, so the material has no overall magnetism. However, the way the atoms are arranged in the crystal causes electrons with different spins behave differently, even though the material isn't magnetic overall.

These unique properties make altermagnets exciting for future technologies like spintronics.

The scientists also found that when they replaced 2% of the Cr atoms with vanadium, the Hall and Seebeck signals both turned uniformly positive, meaning the whole crystal behaved as *p*-type, just as theory predicted.

Android phones brought early quake warnings to 98 countries

Google and the University of California Berkeley's Seismology Laboratory have released data pertaining to the Android Earthquake Alert system, detailing its methods and performance

Sandhya Ramesh

Android smartphones around the world have been actively helping provide earthquake alerts using their acceleration sensors. Between 2021 and 2024, these phones sent thousands of successful warnings to people living in quake-prone regions in 98 countries.

Since 2020, Google has included its Android Earthquake Alert (AEA) system in its phones to detect seismic P- and S-waves that precede an earthquake and provide alerts.

The company and the University of California Berkeley's Seismology Laboratory have released data in a new paper in *Science*, detailing the performance and methods of the algorithm over the last three years.

To sense an earthquake, smartphones bank on their accelerometers. ISTOCK

Sensors abound

The AEA has increased the number of people with access to quake early-warnings from 25 crore people in 2019 to 250 crore people

- Since 2020, the Android Earthquake Alert (AEA) system has used smartphone accelerometers to detect early seismic P-waves worldwide
- The AEA has issued over 79 crore alerts for more than 18,000 earthquakes in 98 countries, warning many people
- Users in recent major earthquakes, such as Turkey-Syria and Nepal, received advance warnings 10-60 seconds before shaking
- The system crowdsources vibration data from stationary phones to confirm earthquakes rapidly, aiming to alert users before S-waves arrive
- AEA issues two alerts: 'BeAware' for light shaking and 'TakeAction' for stronger shaking, plus audio warnings
- AEA sometimes struggles with magnitude accuracy and late warnings; improvements have been made to address these issues

Monitoring and alerting

The AEA system was first rolled out in the U.S. in 2020, followed by New Zealand and Greece in 2021, and then the rest of the world.

It issued alerts for 11,231 events, including ahead of the Turkey-Syria (magnitude 7.8), the Philippines (6.7), and Nepal (5.7) events, all in 2023, and the 6.2-magnitude event in Turkey in April 2025. In the Philippines, Turkey-Syria, and Nepal quakes, users received 10 to 60 seconds of advance warning.

The system has thus far detected more than 18,000 quakes of varying magnitudes, including more than 2,000 strong quakes (moderate shaking or more on the MMI scale) and issued a total of 79 crore alerts. The AEA team also surveyed users between February 2023 and April 2024. Some 79% of 1.5 lakh users said they found the alerts very helpful.

AEA crowdsources signals from a phone's accelerometer, a sensor that measures acceleration. On stationary phones, accelerometers can sense the faster-moving P-waves from an earthquake, which stretch and squeeze the geological material they pass through.

When an accelerometer senses these waves, it sends a signal to Google's earthquake detection server, which then analyses data from other phones nearby to confirm the wave is real.

This data is collected and processed rapidly together with the waves' location and magnitude. The goal is to issue an alert before the slower and more destructive S-waves arrive. While P-waves can travel through both solids and liquids, S-waves move only through solids. They also move up and down, displacing the material they move through.

AEA doesn't monitor surface waves, the third type of wave to arrive in an earthquake. Surface waves are much slower and traverse only the outermost layer of the crust, and are typically responsible for the most aboveground damage.

Algorithm at work

To detect an earthquake, all smartphones bank on their accelerometers to sense vibrations on surfaces and in the air. Earthquakes produce many such vibrations before the energy that causes damage actually reaches a location. The extent of damage caused by a quake increases with each type of wave that reaches a location on the surface.

The algorithm estimates the distance to the epicentre in one of two ways. If it's within 200 km of the surface, it's equal to the time difference between the arrival of the S- and P-waves multiplied by 8 km/s. For deeper epicentres, the algorithm includes additional methods to account for the waves' motion through the mantle.

The algorithm issues two kinds of alerts: 'BeAware' alerts for impending light shaking and 'TakeAction' alerts for stronger shaking; the latter are accompanied by an audio warning that overrides 'do not disturb' settings. Alerts can also be manually enabled and disabled.

According to the paper, the system has increased the number of people with access to earthquake early warning by nearly a factor of 10: from around 25 crore people in 2019 to 250 crore people in 98 countries.

The authors of the paper, who are also affiliated with Harvard University and Google Germany, also highlighted the AEA's shortcomings – including its inability to accurately estimate the magnitude and tendency to relay warnings after shaking has begun.

They also documented these issues in detail and specified tweaks to fix many issues, including lowering the median absolute error in the first estimates of a quake's magnitude from 0.5 to 0.25. They also traced three false positives in the 11,321 events to two hurricanes and one mass phone vibration from an unrelated alert, and included fixes for alerts to be issued faster.

"The proliferation of low-cost sensors in consumer products provides opportunities for new observations of our physical environment that are both dense and global in scale. AEA makes it possible to make global observations of earthquakes," the authors wrote.

The virtues of the tomato, a healthy vegetable

SPEAKING OF SCIENCE

D. Balasubramanian

The evolution and growth of the humble tomato as an essential ingredient of our daily diet across the world is a fascinating story. Yolanda Evans writes in the June 5, 2025, issue of National Geographic magazine about the rise in tomatoes with myth and folklore and how tomatoes weren't always a beloved ingredient.

Once deemed sinful, stinky, and "poison apples", they were linked to superstition and illness, in part due to their reaction with lead in copper-based dinnerware. The use of a more appropriate vessel by farmers from Salem, New Jersey, to cook tomatoes shifted public opinion in the U.S.

Tomatoes were not native to India but brought to us by the Portuguese traders in the 15th century. They were then adopted by the British colonisers in the 16th century who started growing them across the country and added them to their menu. But the people were still wary of it.

As the independent journalist Ms. Sohel Sarkar has written, in 1938 the physician Dr Tara Chitale and her colleagues tried to convince people about the benefits of using tomatoes to cure common cold, scurvy, and iron deficiency, but the response was lukewarm.

The change finally transpired when more and more inputs came from travellers who recommended tomatoes in our diet, and experts from the National Institute of Nutrition in India pointed out the importance of vitamins and minerals in our daily diet and how tomatoes are rich in them.

Long journey: Tomatoes were not native to India but brought to us by Portuguese traders in the 15th century. AP

Health benefits

Plant biologists classify tomato as a fruit. The benefits that tomatoes offer to our daily health have been described among others by the dietitian and public health specialist Ms. Cynthia Saas of California. Let us highlight some of these. Tomatoes are rich sources of antioxidants that offer health benefits for the heart and brain. They have nutrients that reduce the risk factor for heart disease significantly. Increased tomato intake decreases high blood pressure, a noteworthy point for senior citizens. The cellulose fibre content in tomatoes helps to prevent constipation. The red carotenoid pigment called lycopene in tomatoes might help protect people above 70 years of age from Alzheimer's disease. Ms. Saas has warned that before cooking tomatoes, one must ensure they are thoroughly washed and free of any dust-borne germs.

Tomatoes are grown in farmlands all over India, numbering between 5,000 and 10,000 plants per acre. According to one estimate from Professor Jayashankar Telangana Agricultural University, India produced 210 lakh tonnes in the year 2022-2023, second only to China (680 lakh tonnes).

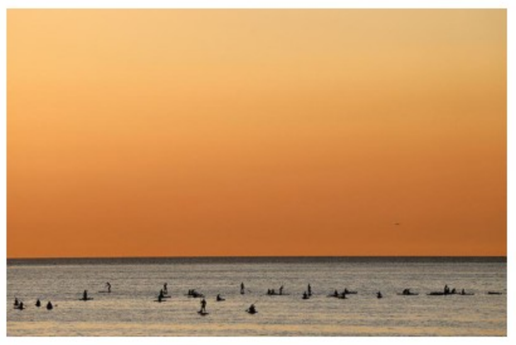
The Indian Institute of Horticultural Research, Bengaluru, has been researching a variety of tomato plants. One, called 'Arka Rakshak', is a disease-resistant hybrid while another, 'Arka Shreshta', has a long shelf-life, making it easier to transport.

The top seven tomato cultivating States are Madhya Pradesh, Odisha, Karnataka, West Bengal, Andhra Pradesh, Gujarat, and Tamil Nadu. The average wholesale price is estimated to be about ₹1,700 per quintal.

Today, just about every house in the country uses tomatoes in their daily diet. A typical Indian dish these days invariably has some tomatoes in it, be it as a soup, added to a vegetable curry, chutney, added to rice or wheat as a 'rasam', and as ketchup for sandwiches and pizzas.

Having tasted the tomato and learnt that it is not sinful but in fact has several health benefits, let us enjoy this vegetable.

SNAPSHOTS



Ocean heatwaves imply earth close to tipping point

Scientists found that the 2023 marine heatwaves were the most extreme recorded. Sea-surface temperatures stayed above the 90th percentile for up to 120 days over 96% of ocean, producing 53.6 billion degrees C-days of thermal stress. The heatwaves were found to have been triggered by extra sunshine and a shallow mixed layer in the North Atlantic; fewer clouds and stronger currents in the Southwest Pacific; sustained heat gain in the North Pacific; and El Niño-driven ocean flows in the equatorial east Pacific.

Meta band tracks wrist muscles to use computer

Reality Labs has built a light wristband that listens to feeble electrical signals in forearm muscles to steer a cursor, write text, and zoom in/out on a computer. The team trained deep-learning models on recordings from thousands of volunteers, so the band worked out of the box for new users. The generic model lets users type at 20.9 words per minute, compared to the typical 36. The authors have called it the first scalable muscle-computer interface to match many tasks of a mouse, joystick or keyboard.

Quarter of people at some risk of zoonotic disease

Researchers combined disease records since 1975 with satellite and population data to find where animal diseases could jump to people next. Their analysis showed warm places that receive heavy rain are most outbreak-prone. After correcting for reporting blindspots, they found 9.3% of earth's land, mostly in Latin America and Oceania, was at high or very-high risk of zoonotic outbreaks. High-risk areas hosted 3% of people and those with moderate risk another 20%.

Question Corner

Air pollution

How does air pollution affect the brain?

Air pollution is increasingly being recognised as an important threat to brain health. Research has demonstrated that exposure to airborne pollutants like fine particulate matter (PM2.5), nitrogen dioxide (NO_2), and ozone can affect brain structure, functioning, and even increase the risk of neurological and mental health disorders. On July 24, for example, scientists reported in *The Lancet Planetary Health* that after analysing data in 51 studies representing more than 26 million adults across four continents and follow-ups of up to 23 years, every additional 5 micrograms per cubic m ($\mu g/m^3$) of PM2.5 particles in the air increased the risk of dementia by about 8%. They also found a 10 $\mu g/m^3$ increase in NO_2 increased the same risk by around 3% and a 1 $\mu g/m^3$ increase of soot did so by 13%. The researchers rated the overall certainty of the evidence to be 'moderate'. They argued that improving air quality could cut future dementia risk in the population, lower healthcare expenses and ease familial burdens.

How do internal complaints committees work?

Are ICCs able to stop sexual harassment in institutions and workplaces across the country?

Priscilla Jebaraj

The story so far:

A young student's self-immolation at a college in Balasore, Odisha has put the spotlight on the Internal Complaints Committee (ICC) which failed to validate her complaints of sexual harassment against her head of the department. The victim's family has claimed the members of the ICC were not trained adequately and that the environment in the college and within the ICC was biased in favour of the accused.

What is the law behind the ICC?

The Supreme Court first called for complaint committees to be set up in its 1997 judgment in response to a petition filed after Bhanwari Devi, a social worker in Rajasthan, was gang-raped when she tried to stop a child marriage. The Court provided basic definitions of sexual harassment in the workplace, and guidelines to combat it. Known as the Vishaka Guidelines, they called for an appropriate mechanism to be created by employers to ensure time bound treatment of complaints of sexual harassment. It said that the Complaints Committee should be headed by a woman, and include women as at least half its members, as well as a third party to prevent undue pressure from senior levels within the organisation.

It was not until the Nirbhaya killing in Delhi in December 2012 that the provisions were actually written into law. One of the several legislations that were enacted was The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, often called the POSH Act, which superceded the Vishaka Guidelines. It mandated the constitution of ICCs at all workplaces which employed more than 10 people. Women working in smaller enterprises in the informal sector could complain to Local Committees to be set up by district authorities.

In December 2024, the Supreme Court took stock of the 'sorry state of affairs', noting 'serious lapses' in the enforcement of the POSH Act. It directed a survey of public and private organisations

What are the powers of an ICC?

Each ICC is to be headed by a Presiding Officer, who is to be a woman employed at a senior level at the workplace. At least two members should be employees preferably committed to the cause of women or who have had experience in social work or have legal knowledge, and another member should be from an NGO devoted to women's rights or a person familiar with sexual harassment issues. At least half of the members should be women. Any aggrieved woman can complain in writing to the ICC or local committee within three months of the date of the harassment incident or series of incidents. The committee can help to settle the matter at the request of the woman or begin an inquiry into the complaint.

The ICC has the same powers as are vested in a civil court under the Code of Civil Procedure. The inquiry is to be completed within 90 days. If the complaint is proved, the ICC must recommend the action to be taken against the accused. The employer is also required to aid the victim if she wishes to file a criminal complaint.

The law mandates confidentiality regarding the contents of the complaint, the identity and addresses of the aggrieved woman, the respondent and witnesses, any information relating to conciliation and inquiry proceedings, and the recommendations of the ICC.

What is the status of their implementation?

In the decade since the law was passed, though ICCs have been set up in some institutions, their coverage is far from universal. In December 2024, the Supreme Court took stock of the "sorry state of affairs", pointing out that it was "disquieting" to note "serious lapses" in the enforcement of the POSH Act. It directed immediate compliance within the government, and a survey of public and private organisations as well. "This law was designed to be monitored, but who is doing it? District officers are supposed to collect annual reports on compliance and sexual harassment cases from the Local Committees and ICCs, but what is done with that material?" asks Madhu Mehra, a lawyer advocating for women's rights, and the founder of Partners for Law in Development. Ms. Mehra points out that while the Women and Child Development Ministry is the line Ministry for the POSH Act, it is the Labour Ministry and Industries Ministry that deal with workplaces and employers. "Accountability is falling between the cracks. Where is the evidence-based analysis on how this law is functioning? It's a black hole."

She says the Balasore case shows that even where ICCs are in place, they are merely a "dead letter" if there is insufficient training for members, if the power imbalance in a workplace is not addressed, and if there is no confidentiality being maintained.

What makes NASA-ISRO NISAR satellite special?

What is the need for NISAR? What is synthetic aperture radar? How will NISAR serve India's needs, especially on agriculture, forestry, and disaster management? How was NISAR built? How soon will the data NISAR produces be available for users?

Vasudevan Mukunth

The story so far:

The Indian Space Research Organisation (ISRO) is planning to launch the NISAR satellite from Sriharikota on July 30 onboard a GSLV Mk-II rocket. 'NISAR' stands for NASA-ISRO Synthetic Aperture Radar and is a joint mission of the two space agencies. It is a sophisticated earth-observation satellite designed to study changes on the earth's surface in fine detail, covering earthquakes, volcanoes, ecosystems, ice sheets, farmland, floods, and landslides.

What's the need for NISAR?

NISAR is the first major earth-observing mission with a dual-band radar, which will allow it to observe changes more precisely than any other satellite. It will be able to see through clouds, smoke, and even thick vegetation, both at day and night, in all weather conditions. The three-tonne machine costs more than $1.5 billion, making it one of the most expensive earth-observing satellites to date.

The earth's surface is constantly changing. Natural disasters, human-driven changes, and climate shifts all affect environments and human societies. Satellites provide critical information by taking snapshots of these changes from space, helping scientists, governments, and relief agencies prepare for, respond to or study them. To this end, NASA and ISRO have created a powerful global mission that also allows ISRO guaranteed access to a stream of high-resolution data tailored to India's needs.

NISAR's science and application goals span six areas: solid earth processes, ecosystems, ice dynamics, coastal and ocean processes, disaster response, and additional applications (including tracking groundwater, oil reservoirs, and infrastructure like levees, dams etc.). The planned mission lifetime is three years although its design lifetime is at least five years. Notably,

During a disaster, NISAR can collect data for 'damage proxy maps' to be delivered in under five hours

Ready for lift-off: A view of the NASA-ISRO NISAR ahead of its launch on July 30 from the Satish Dhawan Space Centre in Sriharikota. ANI

the mission's data policy entails that the data NISAR produces will be freely available to all users (typically) within a few hours.

How does NISAR work?

Once it is launched, NISAR will enter into a sun-synchronous polar orbit at 747 km altitude and an inclination of 98.4°. From here, instead of snapping pictures, NISAR's synthetic aperture radar (SAR) will bounce radar waves off the planet's surface and measure how long the signal takes to come back and how its phase changes. The ability of a radar antenna to resolve smaller details increases with its length, called its aperture. In orbit, deploying an antenna hundreds of metres long is impractical. SAR gets around this by mimicking a giant antenna. As the spacecraft moves forward, it transmits a train of radar pulses and records the echoes. Later, a computer coherently combines all those echoes as if they had been captured simultaneously by one very long antenna, hence the "synthetic aperture".

NISAR will combine an L-band SAR (1.257 GHz), which uses longer-wavelength radiowaves to track changes under thick forests and soil and deformations on the ground, and an S-band SAR (3.2 GHz), which uses shorter-wavelength radiowaves to capture surface details, such as crops and water surfaces.

Although NISAR will operate globally at L-band, ISRO has reserved routine, planned acquisitions with the S-band SAR over India. The latter acquisitions have extended sensitivity to biomass, better soil-moisture retrieval, and mitigate ionospheric noise – all capabilities tuned to India's needs in agriculture, forestry, and disaster management. Because the L-band radar is the principal tool for NASA's mission goals, the instrument is expected to operate in up to 70% of every orbit. This said, operating both radars together is an official implementation goal so that mode conflicts over the Indian subcontinent are minimised.

Polarisation is the direction in which the electric field of some electromagnetic radiation, like radiowaves, oscillates. SAR can transmit and receive radar signals with horizontal or vertical polarisation. Using different combinations will allow the instruments to identify the structure and types of different surface materials, like soil, snow, crop or wood.

The swath width, that is, the breadth of the bands on the ground the SARs will scan, is an ultra-wide 240 km. The radars' SweepSAR design will transmit this beam and, upon its return, digitally steer multiple small sub-apertures in sequence, synthesising beams that sweep across the ground track. This scan-on-receive method allows the 240-km swath without compromising resolution.

The resulting scans will have a spatial resolution of 3-10 m and centimetre-scale vertical mapping – enough to spot impending land subsidence in cities, for example – depending on the mode. Each spot on the ground will be scanned once every 12 days. The satellite also features a large 12-m-wide mesh antenna. NISAR will produce annual maps of aboveground woody biomass of 1 ha resolution and quarterly maps of active and inactive cropland. High-resolution maps of flooded versus dry areas will be available as well. During a disaster, NISAR can also be directed to collect data for 'damage proxy maps' to be delivered in under five hours.

This said, for certain acquisition modes, NISAR won't be able to achieve full global coverage at the highest resolution. Above roughly 60° latitude, every alternative observation will be skipped due to converging ground tracks. Similarly, some 10% of the surface may not be mapped from either direction (of the satellite's passage over the ground) in any given 12-day cycle.

How was NISAR built?

At the time the two space organisations agreed to build NISAR, NASA and ISRO decided each body would contribute equivalent-scale hardware, expertise, and funding.

ISRO supplied the I-3K spacecraft bus, the platform that houses the controls to handle command and data, propulsion, and attitude, plus 4kW of solar power. The same package also included the entire S-band radar electronics, a high-rate Ka-band telecom subsystem, and a gimballed high-gain antenna. The S-band electronics were designed and built at the Space Applications Centre in Ahmedabad.

NASA's biggest contribution was the complete L-band SAR system. NASA's Jet Propulsion Laboratory (JPL) supplied all radio-frequency electronics, the 12-m antenna, a 9-m carbon-composite boom, and the instrument structure that carries both radars. The agency also fabricated the L-band feed aperture and provided the supporting avionics, including a high-capacity solid-state recorder, a GPS receiver, an autonomous payload data system, and a Ka-band payload communications subsystem. The spacecraft was to be integrated at the ISRO Satellite Centre in Bengaluru after the two radars were mated at JPL. Following observatory-level tests, the mission will lift off from Sriharikota onboard a GSLV Mk-II rocket, with ISRO providing end-to-end launch services.

While the mission operations are to be centred at the JPL Mission Operations Center, day-to-day flight operations will be led from the ISRO Telemetry, Tracking and Command Network in Bengaluru.

Once NISAR is in orbit, most of its data will be sent through NASA's Near Earth Network facilities in Alaska, Svalbard (Norway), and Punta Arenas (Chile), which can together receive around 3 TB of radar data per day. They will be complemented by ISRO's ground stations in Shadnagar and Antarctica. After the raw data arrive, India's National Remote Sensing Centre will process and distribute all products required for Indian users, mirroring NASA's pipeline.

What does the new U.K.-India trade deal entail?

What are the contours and implications of the Comprehensive Economic and Trade Agreement? How will opening up the service sector to the U.K. help India? What is the Double Contribution Convention? When will the trade deal come into effect?

T.C.A. Sharad Raghavan

The story so far:

India and the U.K. signed a Comprehensive Economic and Trade Agreement (CETA) on Thursday, after having announced the conclusion of negotiations on the deal in May this year. With negotiations starting in January 2022, the deal marks a more than three-year effort to enhance bilateral trade between the two countries.

What has broadly been agreed to?

Under the deal, the U.K. has removed tariffs on 99% of its product lines. However, not all of these product lines are exported by India to the U.K. According to an analysis by the Global Trade Research Initiative, about $6.5 billion or 45% of what India currently exports to the U.K. – such as textiles, footwear, carpets, automobiles, seafood, and fresh fruits such as grapes and mangoes – will now enter the U.K.

For the first time, India has included cuts in its tariffs on imported cars in a trade deal

New pact: Union Minister Piyush Goyal and U.K. Secretary of State for Business and Trade Jonathan Reynolds sign India-U.K. CETA on July 24. ANI

duty-free. The remaining $8 billion worth of goods that India exports to the U.K. – petroleum, pharmaceuticals, diamonds, and aircraft components – already enjoy zero duty access. India has agreed to either eliminate or reduce duties on 90% of its tariff lines, which comprises about 92% of what the U.K. exports to us, according to data with the U.K. government. Alcohol from the U.K., especially whiskey, is set to become cheaper in India, as are British cars, and engineering products.

The U.K. is a relatively small trading partner for India. About 3.3% of India's exports in 2024-25 went to the U.K., and the U.K. made up 1.2% of India's imports that year.

Is the deal restricted to the goods trade?

No, the CETA incorporates a significant section on services, which is especially of interest to India since services exports are a vital engine of growth. Under the 'economic' component of the deal, India has agreed to open up some key sectors of its service economy to U.K. firms, such as accounting, auditing, financial services, telecom, and environmental services.

What this means is that U.K. companies operating in these sectors can offer their services to Indian customers without first having to establish a local presence here. Despite this, they will be treated at par with Indian firms. India has also agreed to recognise U.K. professional qualifications in law and accounting, but not in legal services.

The U.K. has agreed to grant commercial presence rights to Indian companies in sectors such as computer services, consultancy, and environmental services. This means Indian companies operating in these sectors can set up branches, subsidiaries, or representative offices in the U.K.

One major positive for India arises out of the Double Contribution Convention (DCC), which is a parallel agreement between the two countries that was negotiated simultaneously, and that will come into force when the CETA does. Under the DCC, the U.K. will allow 75,000 Indian workers on short U.K. assignments to continue paying into India's social security system without also having to pay the same in the U.K. This is highly beneficial for Indian workers in the U.K. since many of them work there for so short a stint that they do not get to avail of the benefits of social security there while having to contribute to it.

Is the deal a standard one or does it include unusual aspects?

While the broad contours of the deal are pretty standard, dealing with tariff and non-tariff barriers, there are some aspects that are unusual. The first is to do with auto tariffs. India has, for the first time, included cuts in its tariffs on imported cars in a trade deal.

Large-engine luxury petrol cars imported into India from the U.K. will see their import duty cut to 10% over 15 years from the current maximum of 110%. However, this is subject to a quota starting at 10,000 units and rising to 19,000 in the fifth year of the deal. For mid-sized cars, the tariff has been cut to 50% subject to a quota, which will fall to 10% by year five.

Small cars will enjoy a similar tariff reduction and growing quota.

The idea behind the quota, according to government sources, is to allow the domestic industry enough time to prepare to compete with U.K. imports. Further, nascent industries such as electric vehicles have been further protected with no duty concessions being given for electric, hybrid, and hydrogen-powered vehicles for the first five years.

The other unusual aspect of the deal is that U.K. firms will now be allowed to participate in Indian central government procurement bids. India will open about 40,000 high-value contracts from central ministries and departments in sectors such as transport, green energy, and infrastructure.

So what next?

The deal does not come into effect immediately. It needs to be ratified by the Cabinets of both countries, a process that could take as long as six months to a year. For India, the deal also serves as a template for future deals with other economies, such as the U.S. and the EU, both of which are in various stages of negotiation.

PROFILES

DEFINING GENOCIDE Under the current UN Convention, genocide refers to any of the following acts committed with the intent to destroy, in whole or in part, a national, ethnic, racial, or religious group

1. Killing members of the group
2. Causing serious bodily or mental harm to members of the group
3. Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part
4. Imposing measures intended to prevent births within the group
5. Forcibly transferring children of the group to another group

Israel's war on Gaza

Life and death

Twenty-one months into the war, Gaza lies in ruins: over 2.5% of its pre-war population has been killed, more than 6% wounded, nearly all of its 2.3 million people displaced and mass hunger is spreading across the strip; the scale of death, destruction of infrastructure, and starvation has intensified accusations that Israel is committing genocide against Palestinians in the enclave.

By **Stanly Johny, Vignesh Radhakrishnan, Sambavi Parthasarathy, Devyanshi Bihani, Milan Cijo and Renuka Ramakrishna**

When Israel launched its war on Gaza, following the October 7, 2023 cross-border attack by Hamas – which killed at least 1,200 people – it declared two objectives: the destruction of Hamas and the release of the 251 hostages taken by the Palestinian militant group. Twenty-one months later, both goals remain largely unmet. Hamas is far from being destroyed. Of the hostages, 148 were released and 56 bodies returned during two short ceasefires – in November 2023, and between January and March 2025. Israeli troops rescued eight hostages, while around 50 remain in captivity.

On the other side, Israel's war has devastated Gaza, a 365 sq. km territory, home to 2.3 million people, sandwiched between Israel proper and the Mediterranean Sea. At least 59,000 Palestinians have been killed since the war began – that is 2.57% of Gaza's entire population. Of the dead, more than 17,000 are children. Thousands more remain missing. More than 1,40,000 people, over 6% of Gaza's population, have been wounded. These figures make Gaza one of the deadliest battlefields in the 21st century. Nearly the entire population of Gaza has been displaced, most of them multiple times. Since March, when the second ceasefire collapsed, Israel has tightened its blockade of the enclave, triggering a mass starvation crisis. According to the UN, at least 1,000 Palestinians were shot dead at aid centres while seeking food since May. Dozens of children have died from starvation and malnutrition. The scale of death, starvation and displacement has intensified accusations that Israel is committing genocide in Gaza.

Prime Minister Benjamin Netanyahu's government has rejected these charges, insisting that Israel is fighting Hamas. Efforts to reach a ceasefire have stalled, as there is no consensus on the "day after" in Gaza. Hamas demands a full Israeli withdrawal, while Mr. Netanyahu insists on "total victory". As the war grinds on, the suffering in Gaza deepens, with no end in sight.

NUMBER OF CHILDREN KILLED

The chart shows the cumulative monthly death toll of children in Gaza

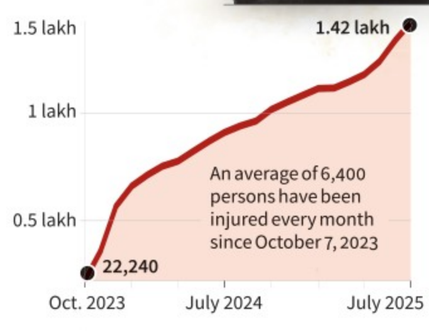
Breakdown of child deaths by age group

- *0–12 months: 937*
- *1–5 years: 4,517*
- *6–12 years: 6,325*
- *13–17 years: 5,342*

(Data available till June 2025)

NUMBER OF PERSONS INJURED

The chart shows the cumulative monthly number of people injured in Gaza



According to the UNICEF, the Gaza Strip has the **highest number of child amputees per capita** than anywhere else in the world

DISRUPTED FOOD SUPPLY

The number of food trucks entering Gaza per month is much lesser than the UN's estimated requirement of **500** aid trucks per day to meet the population's basic needs

~2 mn.

According to OCHA, more than two million Palestinians are now squeezed into an area lesser than 45 square kilometres

~700

Nearly 500 aid workers and more than 200 journalists have been killed so far in the conflict

40,221

Killed as of August 2024. The number of persons injured crossed the **90,000** mark

20,063

Killed as of December 2023. The number of persons injured touched the **56,000** mark

A short pause: **Israel and Hamas agreed for a temporary pause in fighting in November 2023, which lasted seven days**

88%

of the Gaza Strip currently falls within Israeli-militarised zones or has been placed under displacement order

The line shows the cumulative number of deaths in Gaza due to Israeli attacks since October 7, 2023

59,676

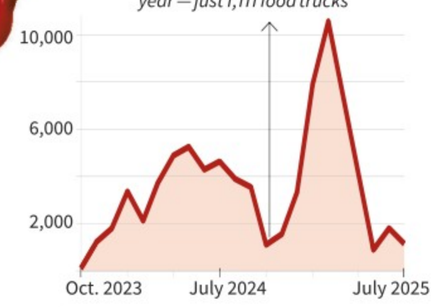
Killed as of July 26, 2025. The number of Palestinians killed in Israeli attacks continue to rise with no end in sight. More than a lakh have also been injured and over **10,000** remain missing

A brief truce: **After 15 months of conflict, a ceasefire deal was reached on January 19, 2025. But it wasn't long before the killings began again**

127

persons have died due to starvation in Gaza as of July 26, 2025. The toll includes **85** children

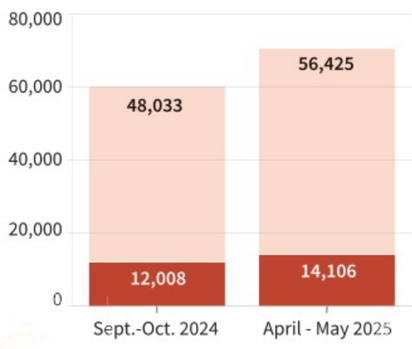
The chart shows the number of food aid trucks that entered Gaza every month. *After Israel imposed new customs rules that affected UN convoys, aid deliveries dropped in October 2024 to their lowest point that year — just 1,111 food trucks*



On July 23, 2025, over 100 aid organisations and human rights groups warned that "mass starvation" was spreading in Gaza

SURGING CASES OF MALNUTRITION

The chart shows acute malnutrition cases among children aged 6 months to 5 years



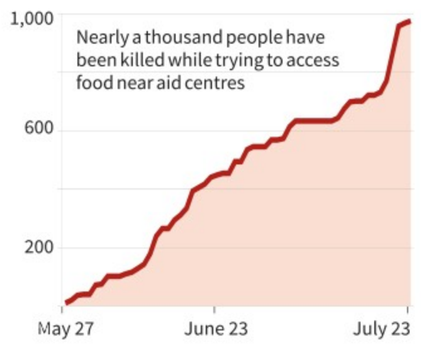
ALARMING FOOD INSECURITY

The chart depicts acute food insecurity levels (as defined by IPC) based on the severity of food consumption gaps at the household level (**Projected*)

- ***Crisis:*** *Barely meet minimum food needs by depleting key livelihood assets*
- ***Emergency:*** *Severe food gaps managed only through extreme coping and asset liquidation; high malnutrition and excess deaths*
- ***Catastrophe:*** *Total lack of food and basic needs despite all coping efforts; marked by starvation, death, and critical malnutrition*

AID-SEEKERS KILLED AT DISTRIBUTION SITES

The chart shows the cumulative number of persons killed near aid distribution centres in Gaza since May 27, 2025



Sources: Integrated Food Security Phase Classification (IPC) Mapping Tool, OCHA Health Cluster, ACLED, UNOSTAT, FAOSTAT, COGAT. Figures for July 2025 in the charts are as of July 23, 2025 | Milan Cijo and Renuka Ramakrishna are interning with The Hindu Data Team

Thousands of Malaysians protest rising living costs, 'lack of reform'

REUTERS

Tens of thousands of Malaysians protested at Merdeka (Independence) Square in Kuala Lumpur against rising living costs and unfulfilled reform promises by Prime Minister Anwar Ibrahim's government. Organised by Opposition parties, the rally demanded his resignation despite his recent populist economic measures. AFP

LAGOS

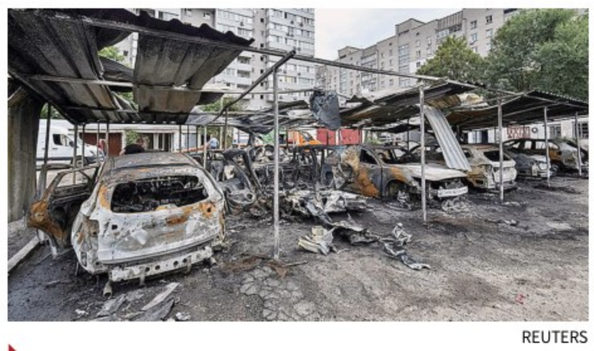
Over 600 malnourished children die in six months in Nigeria: MSF

REUTERS

Over 600 malnourished children died in northern Nigeria within six months as foreign aid sharply declined, a medical charity has said. Doctors Without Borders (MSF) reported a 208% rise in severe child malnutrition. Aid cuts from the U.S., U.K., and EU, combined with insecurity and rising costs, intensified the crisis. AFP

MOSCOW

Russia says it seized two villages in central Ukraine; strikes kill six



REUTERS

Russia on Saturday said it captured Maliyevka in Dnipropetrovsk and Zeleny Gai in Donetsk, marking rare advances in Ukraine's mining heartland since the 2022 invasion. Overnight strikes by both countries killed at least six persons, as Russian troops push closer to key Ukrainian cities. AFP

WASHINGTON

Pakistan says it is close to U.S. trade deal, Washington gives no timeline

AP

Pakistan's Foreign Minister Ishaq Dar on Friday said the U.S. and Pakistan are "very close" to finalising a trade deal, possibly within days, after meeting Secretary of State Marco Rubio. However, U.S. officials have not confirmed any timeline, only discussing expanded trade in critical minerals. REUTERS

At least 25 killed in Israeli attacks in Gaza, some while seeking food

The majority of victims were killed by gunfire as they waited for aid trucks close to the Zikim crossing; UN experts say Palestinians are at risk of famine, with reports of increasing numbers of people dying from causes related to malnutrition

Associated Press
DEIR AL-BALAH

At least 25 people were killed by Israeli air strikes and gunshots overnight, according to health officials and the ambulance service on Saturday, as ceasefire talks appear to have stalled and Palestinians in Gaza face famine.

The majority of victims were killed by gunfire as they waited for aid trucks close to the Zikim crossing with Israel, said staff at Shifa hospital, where the bodies were brought.

Israel's army did not respond to request for comments about the latest shootings.

Palestinians struggle as they wait to receive food from a charity kitchen, amid a hunger crisis, in Gaza City on Saturday. REUTERS

Those killed in strikes include four persons in an apartment building in Gaza City among others, hospital staff and the ambulance service said.

The strikes come as ceasefire talks between Israel and Hamas have hit a standstill after the United States and Israel recalled their negotiating teams on Thursday, throwing the future of the ceasefire talks into further uncertainty.

Israeli Prime Minister Benjamin Netanyahu said on Friday his government was considering "alternative options" to ceasefire talks with Hamas. His comments came as a Hamas official said negotiations were expected to resume next week and portrayed the recall of the Israeli and American delegations as a pressure tactic.

'Temporary' pause

Egypt and Qatar, which are mediating the talks alongside the United States, said the pause was only temporary and that talks would resume, though they did not say when.

For desperate Palestinians a ceasefire cannot come soon enough.

The United Nations and experts say that Palestinians in Gaza are at risk of famine, with reports of increasing numbers of people dying from causes related to malnutrition.

While Israel's army says it is allowing aid into the enclave with no limit on the number of trucks that can enter, the UN says it is hampered by Israeli military restrictions on its movements and incidents of criminal looting.

The Zikim crossing shootings come days after at least 79 Palestinians were killed trying to reach aid entering through the same crossing.

Voters in Taiwan reject bid to oust KMT lawmakers

Associated Press
TAIPEI

Taiwanese voters rejected a bid to oust about one-fifth of their lawmakers, all from the Opposition Nationalist Party, in a recall election on Saturday, dampening hopes for the ruling party to flip the balance of power in the self-ruled island's legislature.

The independence-leaning ruling Democratic Progressive Party won last year's presidential election, but the China-friendly Nationalists, also known as the KMT, and the smaller Taiwan People's Party have enough seats to form a majority bloc.

While vote-counting was still under way, preliminary results showed that the recall efforts failed to remove any of the two dozen KMT lawmakers. The scale of the recall elections is unprecedented, with another seven KMT lawmakers facing a similar vote on August 23.

Moment of relief: Taiwan's KMT chairman Eric Chu (third from left), hugs lawmakers after a recall election in Taipei on Saturday. AFP

The KMT currently holds 52 seats, while the ruling DPP holds 51 seats. For the DPP to secure a legislative majority, at least six KMT lawmakers would need to be ousted, and the ruling party would need to win the by-elections, which must be held within three months of the announcement of results.

For the recall to pass, more than a quarter of eligible voters in the electoral district must vote in favour of it, and the total number of supporters must exceed those voting against.

Taiwan's Central Election Commission will announce the official results on August 1.

At least six persons killed in southeast Iran 'terror' attack

Agence France-Presse
TEHRAN

At least six persons, including law enforcement, were killed on Saturday during a "terrorist attack" on a judicial building in southeast Iran, the judiciary said.

"The number of martyrs increased to six," the judiciary's *Mizan* online said following earlier reports of a death toll of five, with 13 injured.

Provincial chief justice Ali Movahedi-Rad, cited by *Mizan*, later announced the injured count had reached 22.

All three of the gunmen, who had tried to enter the building disguised as visitors and were wearing explosive vests, were killed, he added. The death toll also included three law enforcement members.

Iranian media said shortly after the attack that Jaish al-Adl (Arabic for "Army of Justice"), a Baloch jihadist group based in Pakistan but active in Iran, claimed responsibility for the attack.

Trump tees off in Scotland as protesters take to the streets and criticise his visit

Reuters
EDINBURGH

U.S. President Donald Trump kept a low profile on his Scottish golf course on Saturday, ahead of meetings with top British and European leaders, as questions swirled at home about his ties to disgraced financier and sex offender Jeffrey Epstein.

Mr. Trump arrived on Friday on a visit that has triggered protests in Scotland, with hundreds lining the streets of the capital Edinburgh waving placards saying: "NOT MY PRESIDENT."

A demonstrator holds a cut-out during a rally, protesting the visit of Donald Trump in Scotland on Saturday. REUTERS

The U.S. leader told reporters on arrival that he would visit his two golf properties in Scotland – one in Turnberry and the other near Aberdeen. He is also due to meet British PM Keir Starmer, Scottish leader John Swinney and European Commission President Ursula von der Leyen, whom he called a "highly respected woman".

Frustrated by continued questions about his administration's handling of investigative files related to Epstein's criminal charges and his 2019 death in prison, Mr. Trump told reporters to focus on bigger issues and other people.

"You make it a very big thing over something that's not a big thing," Mr. Trump said. "Don't talk about Trump. What you should be talking about is the fact that we have the greatest six months in the history of a presidency."

Thailand-Cambodia clashes spread along frontier as toll rises

Agence France-Presse
SAMRAONG

Thailand and Cambodia pounded each other with heavy artillery fire for a third day on Saturday, as a border conflict that killed at least 33 people and displaced more than 1,50,000 from their homes spread across the frontier.

Both sides say they are open to a truce in the combat, but have accused the other of undermining armistice efforts.

Cambodia's Defence Ministry said 13 people have been confirmed killed in the fighting since Thursday, including eight civilians and five soldiers, with 71 people wounded.

Thai authorities say 13 civilians and seven soldiers have been killed on their side, taking the toll across both nations higher than it was in the last major round of fighting between 2008 and 2011.

Former Thai Prime Minister Thaksin Shinawatra visited shelters on Saturday to meet evacuees.

Sport

Tanvi, Vennala sign off with bronze medals

BADMINTON

Press Trust of India
SOLO (INDONESIA)

Rising shuttlers Tanvi Sharma and Vennala Kalagotla signed off with bronze medals as India ended its impressive campaign at the Badminton Asia junior championships here on Saturday.

A first

It was a historic first for India, with two women's shuttlers finishing on the podium in the same edition of the event.

Vennala fought valiantly against China's Liu Si Ya before going down 15-21, 18-21 in 37 minutes.

Down 15-20 in the second game, the Indian saved three match points to raise hopes of a comeback. However, an error at crucial time allowed Liu to seal the contest in straight games.

On the other hand, second seed Tanvi Sharma lost 13-21, 14-21 to eighth seed Yin Yi Qing of China in 35 minutes.

Up and down

After dropping the opening game, Tanvi staged a spirited fightback, racing to a 6-1 lead in the second.

However, Yin clawed her way back to make it 8-8 before racing to the finish.

It was another good show by Tanvi, who had finished runner-up at the U.S. Open Super 300 tournament last month.

Time And Tide wins Bangalore City Sprint Championship Gold Cup

RACING

BENGALURU: Adiraj S. Jodha-trained Time And Tide (Sandesh up) won the Bangalore City Sprint Championship Gold Cup (1,200m), the feature event of the races held here on Saturday (July 26). The winner is owned by Bachhawat Farms Pvt Ltd rep. by Mr. Vikram Bachhawat.

THE RESULTS

1. BRAVE DANCER PLATE (1,800M): DOUBLE SCOTCH (Antony) 1, Sea Diamond (Vinod Shinde) 2 and Highland Dream (Abhishek Mhatre) 3. Not run: Royal Whisper. 2-1/4 and Shd. 1m 58.21s. Rs. 21 (w), SHP: 20, FP: 35. Favourite: Highland Dream.
Owner: Mr. Ramesh R. Trainer: S. Shobhan Babu.

2. RED DIVINE PLATE (1,100M): EFFICACY (Shreyas S) 1, My Honey (L.A. Rozario) 2, Midnight Blue (A.A. Vikrant) 3 and White Secret (A. Ramu) 4. Not run: Agrima. 7-1/2, 1-3/4 and 2. 1m 08.20s. Rs. 14 (w), 11, 15 and 14 (p), SHP: 28, THP: 42, FP: 31, Q: 32, Trinella: 70/21, Exacta: 309/227. Favourite: Efficacy.
Owners: Mr. Daulat Chhabria, Mr. Maloji Baburao Bhosale & Mrs. Anasuya Gupta. Trainer: S. Attaollahi.

3. HONEY DAY PLATE (1,400M): DOUBLE VISION (G. Vivek) 1, Able One (Salman Khan) 2, Super Kind (Abhishek Mhatre) 3 and Gandolfini (Akshay K) 4. 3-1/4, 3/4 and 6-1/4. 1m 29.15s. Rs. 32 (w), 13, 19 and 13 (p), SHP: 58, THP: 46, FP: 491, Q: 237, Trinella: 771/358, Exacta: 2,662/992. Favourite: Gandolfini.
Owner: Mr. A. Muniraja. Trainer: S. Shobhan Babu.

4. LUMBINI STUD PLATE (1,200M): DEFENCE COUNSEL (Abhishek Mhatre) 1, Knotty Scotty (G. Vivek) 2, Storm Shadow (Vinod Shinde) 3 and Darrion (L.A. Rozario) 4. THIRD IN HISTORY

Stokes achieves the double of 7000 runs and 200 wickets

REUTERS

England captain Ben Stokes became the third player in Test history to achieve the double of 7000 runs and 200 wickets, joining the likes of Sir Garfield Sobers and Jacques Kallis. Stokes breached the 7000-mark during his ton against India at Manchester. He had brought up his 200th wicket last year at Lord's against West Indies.

MASTER OF ALL TRADES

Stokes is fourth Englishman with a ton and a five-for in the same Test

REUTERS

England skipper Ben Stokes became the fourth all-rounder from the country to score a century and pick up a five-wicket haul in the same Test. Tony Greig, Ian Botham and Gus Atkinson are the other players to achieve the feat. Only Botham (five) has achieved this feat more than once.

BIG BOOST

Pant will be available to bat in the second innings: Kotak

GETTY IMAGES

India's batting coach Sitanshu Kotak confirmed that Rishabh Pant, who fractured his foot on the opening day of the fourth Test, will be available for batting in the second innings. "I think he will bat," Kotak said. Pant scored a half-century in the first essay, and with India fighting to save the Test, his presence could be a huge boost.

CUP OF JOY

Black Caps beat Proteas in a thriller, clinch tri-series title

X@ZIMBABWE CRICKET

New Zealand edged out South Africa by three runs in the Twenty20 International tri-series final at the Harare Sports Club on Saturday. **The scores:** NZ 180/5 in 20 overs (Seifert 30, Conway 47, Rachin 47, Ngidi 2/24) bt SA 177/6 in 20 overs (Pretorius 51, Hendricks 37, Brevis 31, Henry 2/19). **Toss:** SA; **PoM & PoS:** Henry.

Stokes' ton hands England huge lead; Rahul, Gill live to fight another day

The tourists concede 600-plus runs in a Test innings for the first time since 2014; Woakes sends back Jaiswal and Sai Sudharsan for ducks

INDIA IN ENGLAND

Shayan Acharya
MANCHESTER

A calm Ben Stokes glanced through the stands as the trumpets belted out the tune of the Superman theme and the Barmy Army chanted his name.

The England captain was on 99 and was beaten by Washington Sundar a couple of times. As the sound of the trumpets grew louder and the fans waited with bated breath for him to score a much-deserved Test century – his first in more than two years – Stokes adjusted his helmet and eventually leg-glanced Mohammed Siraj to the fence.

Special occasion

The Old Trafford was on its feet as Stokes took off his helmet and did the two-fingered salute to the skies. It, indeed, turned out to be a special outing as he brought up his 14th century, following a five-for.

Stokes (141, 198b, 11x4, 3x6) eventually guided England to 669 as the hosts gained a massive lead.

Chris Woakes added to India's woes in just five balls before the lunch as he removed Yashasvi Jaiswal and B. Sai Sudharsan off consecutive deliveries with nothing on the scoreboard. However, showing resilience, K.L. Rahul (87 batting, 210b, 8x4) and captain Shubman Gill (78 batting, 167b, 10x4) defied the English bowlers for more than 62 overs as India ended the day at 174 for two.

Trailing by 137 runs, saving the match is still a long way, but Gill and Rahul have instilled belief in the Indian camp. Making the most of a reprieve, Gill counter-attacked with a cover drive and executed an upper cut as well for two fours off Jofra Archer, while Rahul was more on the defensive. With the surface easing out as the sun played hide and seek, Stokes did not bowl due to a hamstring pull and England's attack didn't have the same venom. Gill and Rahul overcame a barrage of short balls and showed steel to create milestones.

Rahul became the second Asian opener to aggregate 500-plus (508) runs in a Test series in England after Sunil Gavaskar (542 in 1979). With the two well set, India dominated the final session.

Elite club

On a day when records tumbled, Stokes made it to an elite club of all-rounders with 7,000 runs and 200 wickets in the format, alongside Garry Sobers and Jacques Kallis.

As the day's proceedings began, India fancied its chances of wrapping up things quickly, but with Stokes around, there was not much that the bowlers could do. Anshul Kamboj wasn't given a single over, while Jasprit Bumrah leaked 100-plus (112) runs for the first time in his 48-Test career.

This was also the first time, since 2014, that India conceded 600-plus runs in a Test innings.

As India registered a dubious record, Brydon Carse and Stokes extended the lead as the latter took on the spinners and went on to add 38 runs off just 34 balls after his ton before holing out to long-on, attempting a big shot against the left-arm spinner.

Stokes has put England in a commanding position. But with Gill and Rahul rising to the occasion, there's still hope for India.

On top of his game: Stokes followed up his five-wicket haul with a gutsy century. GETTY IMAGES

No breakthrough: Divya, right, couldn't press home the advantage against Humpy. FIDE

Humpy and Divya draw opening game

CHESS WORLD CUP

Press Trust of India
BATUMI

Young Indian International Master Divya Deshmukh held her nerve to hold stalwart Koneru Humpy to a draw in game one of the FIDE Women's World Cup final, with both players having their share of opportunities to take the lead here on Saturday.

The draw with black means Humpy, the two-time World Rapid champion, holds a slight edge going in to the second and final game under the classical chess rules in the two-game mini-match, and should the deadlock continue, games of shorter duration will be played to determine the winner.

Humpy employed the Queen's gambit accepted as black and it turned out to be a pretty fascinating game as Divya, 19, came up with a piece sacrifice early to deny the black king the right to castle.

Humpy was the first to err and, according to computers, Divya had things under control on the 14th move. However, in her bid to recover the extra material, the Nagpur girl, who has secured a place in the Candidates tournament with her sterling performance here, missed an opportunity.

What followed the exchange of all minor pieces and the ensuing queen and rook endgame gave enough counter-play to both players. The game was eventually drawn after Humpy sacrificed her rook to force perpetual checks.

"The game saw an extremely sharp battle with the game ending in a draw in 41 moves. On move seven, Divya made her aggressive intentions clear by offering another pawn, which looked like home preparation. Humpy made a practical decision of refraining from taking the pawn and a balanced position was reached by move 10 by white," said Grandmaster Pravin Thipsay.

In the play-off for the third place, Chinese players Zhongyi Tan, the former women's World champion and top seed Lei Tingjie also decided to split points in a Queen's Gambit declined game.

Asia Cup: India and Pakistan in same group

Amol Karhadkar
MUMBAI

The Asia Cup men's T20 tournament will be played from September 9 to 28 in the United Arab Emirates. India and Pakistan are likely to face each other thrice, with the first confirmed match to be played on September 14 in Dubai.

Mohsin Naqvi, the Asian Cricket Council president, confirmed the window and the venue for the tournament, to be hosted by the Board of Control for Cricket in India at a neutral venue, in a social media post. The ACC then announced the detailed fixtures on Saturday evening.

The eight-team tournament will witness two groups of four sides each. While India, Pakistan, the UAE and Oman are clubbed together in Group A, Group B comprises Bangladesh, Sri Lanka, Afghanistan and Hong Kong. The tournament will be played in Dubai and Abu Dhabi.

The top two teams from each group will proceed to the Super Fours stage, with the top two facing each other in the final. After the first match between India and Pakistan on Sept. 14, both teams will play each other the following Sunday (Sept. 21), unless either team fails to progress to the Super Fours.

The groups: Group A: India, Pakistan, UAE, Oman. **Group B:** Bangladesh, Sri Lanka, Afghanistan, Hong Kong.

The schedule: League stage: September 9: Afghanistan vs Hong Kong; **Sept. 10:** India vs UAE; **Sept. 11:** Bangladesh vs Hong Kong; **Sept. 12:** Pakistan vs Oman; **Sept. 13:** Bangladesh vs Sri Lanka; **Sept. 14:** India vs Pakistan; **Sept. 15:** UAE vs Oman; **Sept. 15:** Sri Lanka vs Hong Kong; **Sept. 16:** Bangladesh vs Afghanistan; **Sept. 17:** Pakistan vs UAE; **Sept. 18:** Sri Lanka vs Afghanistan; **Sept. 19:** India vs Oman.

Super Fours: Sept. 20: B1 vs B2; **Sept. 21:** A1 vs A2; **Sept. 23:** A2 vs B1; **Sept. 24:** A1 vs B2; **Sept. 25:** A2 vs B2; **Sept. 26:** A1 vs B1.

Final: Sept. 28.

Skipper Stokes brings the best out of the players, says Moeen

Shayan Acharya
MANCHESTER

In his nearly decade-long Test career, Moeen Ali played under three different captains – Alastair Cook, Joe Root and Ben Stokes. Having witnessed England's cricketing metamorphosis up close, the former all-rounder has no hesitation in admitting that 'full-on leader' Stokes has been able to bring the best out of his players as he leads by example.

As Stokes brought up his 14th Test century at Old Trafford on Saturday and put England in command of the fourth Test, Moeen heaped praise on his former teammate.

"He's a full-on leader who always leads from the front. Whatever he asks of the team, he does himself first – whether it's being aggressive or playing a certain way – and everyone follows," Moeen told *The Hindu*. "That's what people love about him in the dressing room, including senior players like Joe Root and Jimmy Anderson, who have been there longer than him. It is love for his captaincy and commitment that make him stand out as captain..."

Inspirational: According to Moeen, Stokes' impact on the team has been huge. GETTY IMAGES

> From the start, Stokes knew exactly what he wanted as captain

Moving on from its traditional approach, England has changed the template of Test cricket with Bazball, and Stokes' fearless leadership has been at its core.

"Stokes has played a massive role in the team. His impact on the way they play has been huge – even better than when I was still playing. They've had many more wins in a shorter period. Both Stokes and (Brendon) McCullum have identified players who can score runs at this level and handle different types of bowling," Moeen said.

Clear vision

"From the start, Stokes knew exactly what he wanted as captain. Having played in sides that struggled over the years, he had a clear vision and stuck to it, backing himself and his method. He's especially good with younger players, giving them the freedom to play their natural game..."

Stokes has led England in 37 Tests, winning 22, losing 13 and drawing one.

Dazzling duo: Sathiyan and Akash won in style. X@RFYOUTHSPORTS

Sathiyan-Akash wins; Sreeja loses in final

Sports Bureau

G. Sathiyan and Akash Pal beat Jules Rolland and Leo De Nodrest of France 11-9, 11-4, 11-9 to win their maiden Tour men's doubles title together at the WTT Contender Lagos on Saturday.

This was Sathiyan's second WTT men's doubles crown after the one with Harmeet Desai in Tunis in 2021. "Fantastic. We both were unseeded. Still, to beat the French pair by a 3-0 margin was great. Akash has a powerful game, and I could place the ball well. We complemented each other," Sathiyan told *The Hindu*.

Sreeja Akula's confidence would have been sky high going into the singles final. She had beaten the likes of top seed Hina Hayata (first round), seventh seed Jieni Shao (quarters) and fourth-seeded Prithika Pavade in the semifinals.

However, Japanese second seed Honoka Hashimoto beat Sreeja 11-7, 11-3, 11-4, 9-11, 13-11 to clinch the crown.

Other results:
Women's semifinals: Sreeja bt Prithika Pavade (Fra) 11-7, 11-4, 11-13, 6-11, 11-9.
Mixed doubles final: Jules Rolland & Pavade (Fra) bt Akash Pal & Poymantee Baisya 12-10, 11-6, 6-11, 11-7.

INBRIEF

Bhavani Devi in third round of fencing World Cup

Coming through the preliminaries, India's C.A. Bhavani Devi overcame Chu Wing Kiu of Hong Kong 15-12 in the second-round (main draw) women's individual sabre bout of the World fencing championships at Tbilisi, Georgia on Saturday. The 31-year-old Indian will next take on Anastassiya Gulik of Kazakhstan. Shreya Gupta lost to Yuina Kaneko of Japan 15-9 in the women's sabre second round (round of 64).

Groves wins penultimate stage, Pogacar still in yellow

Alpecin rider Kaden Groves won stage 20 of the Tour de France at Pontarlier on Saturday after a long-range escape that saw the Australian finish well ahead of the big guns. Runaway overall race leader Tadej Pogacar maintained his lead over Jonas Vingegaard ahead of Sunday's 21st and final stage in Paris. This was the third stage success for Alpecin after Jasper Philipsen and Mathieu van der Poel's wins.

Shillong Lajong hits six past Malaysian Armed Forces FT

Shillong Lajong FC began its Durand Cup campaign in style, breezing past Malaysian Armed Forces Football Team 6-0 in its opening Group E league match at Shillong on Saturday. Everbrightson Sana, *in pic,* and Phrangki Buam scored a brace each while substitutes Treimiki Lamurong and Deibormame Tongper added a goal apiece for the Shillong outfit.

The result: Shillong Lajong FC 6 (Everbrightson Sana 12 & 66, Phrangki Buam 47 & 49, Treimiki Lamurong 73, Deibormame Tongper 90) bt Malaysian Armed Forces FT 0.

David blasts Australia out of trouble and to series win

Tim David scored the fastest century for Australia in a T20I which lifted the tourists to a series-clinching six-wicket win over West Indies in the third game of a five-match series at Basseterre, St. Kitts, on Friday. David and Mitchell Owen's unbroken 128-run stand guided Australia to 215 for four off 16.1 overs to seal the victory and an unassailable 3-0 series lead.

The scores: West Indies 214/4 in 20 overs (Brandon King 62, Shai Hope 102) lost to Australia 215/4 in 16.1 overs (Tim David 102, Mitchell Owen 36, Romario Shepherd 2/39). **Toss:** Australia. **PoM:** David.

Barcelona to play pre-season friendly in Japan today

Barcelona will play a pre-season friendly in Japan on Sunday as scheduled, J-League side Vissel Kobe said, despite the Spanish club initially cancelling the match, citing unspecified "serious contractual breaches". The announcement comes after Barcelona said this week it had to "suspend its participation in the game" in Japan "due to serious contractual breaches on behalf of the promoter". The Spanish giant was scheduled to play Vissel Kobe on Sunday before travelling to South Korea to face FC Seoul on July 31 and Daegu FC on August 4. The Japanese team said "following careful discussions with the relevant parties, the match will be held as planned".

Verstappen grabs sprint win in maiden post-Horner race

The Red Bull driver holds off the McLaren duo of Piastri and Norris to seal the victory; Haas has an impressive outing as Ocon and Bearman finish fifth and seventh; Ferrari's Leclerc is fourth

FORMULA ONE

Associated Press
SPA-FRANCORCHAMPS

Back in business: This was Verstappen's first race win of any sort since the Emilia-Romagna Grand Prix in May. GETTY IMAGES

Max Verstappen overtook Oscar Piastri and drove "15 qualifying laps" to win the Formula 1 sprint race at the Belgian Grand Prix on Saturday as Red Bull begins a new era without fired team principal Christian Horner.

Verstappen surged past Piastri on the straight on the first lap.

The Australian was close behind Verstappen for the rest of the 15-lap sprint race but couldn't find a way past the four-time champion.

Lando Norris, in the other McLaren, was third after retaking the place from Ferrari's Charles Leclerc and catching up to Piastri.

'Over the limit'

"You're keeping faster cars behind, so you have to drive over the limit of what you think is possible," Verstappen said.

"Tire management is out of the window, so that's what's making it really difficult. I'm just doing 15 qualifying laps to try and keep them behind on a track where tire management is important."

It was Verstappen's first race win of any sort since the Emilia-Romagna Grand Prix in May, and his first in a sprint since the United States Grand Prix last October.

Piastri extended his lead over Norris in the standings to nine points from eight. Verstappen is third, 68 points off the lead. Leclerc held on to fourth, and it was an impressive result for Haas, with Esteban Ocon fifth and Oliver Bearman seventh. Carlos Sainz Jr. was sixth for Williams, and Isack Hadjar took the final point for Racing Bulls in eighth.

Sprint results (top eight): 1. Verstappen (Red Bull), 2. Piastri (McLaren), 3. Norris (McLaren), 4. Leclerc (Ferrari), 5. Ocon (Haas), 6. Sainz (Williams), 7. Bearman (Haas), 8. Hadjar (Racing Bulls).

Blowing kisses: Norris celebrates after claiming pole. REUTERS

Norris and Piastri lock front row at Belgian GP

Agence France-Presse
SPA-FRANCORCHAMPS

Lando Norris will start on pole for the Belgian Grand Prix on Sunday with his McLaren teammate Oscar Piastri alongside him on the front row.

Charles Leclerc's Ferrari is on the second row next to Max Verstappen's Red Bull after qualifying at Spa-Francorchamps on Saturday.

Norris has won the last two races and goes into Sunday's Grand Prix nine points behind Piastri in the drivers' standings.

"I was confident coming in to today so it's nice to be on pole," said Norris after his 13th career pole. "Oscar has been doing a good job all weekend and we've been pushing each other a lot. It's tough because you see where your strengths and weaknesses are clearly and you learn from each other quickly, it's good but a tough battle that we have at the minute."

Piastri said: "We're a good team-mate pairing and we learn a lot from each other each weekend."

The grid: Front row: Norris (McLaren), Piastri (McLaren); **Second:** Leclerc (Ferrari), Verstappen (Red Bull). **Third:** Albon (Williams), Russell (Mercedes); **Fourth:** Tsunoda (Red Bull), Hadjar (Racing Bulls); **Fifth:** Lawson (Racing Bulls), Bortoleto (Sauber). **Sixth:** Ocon (Haas), Bearman (Haas); **Seventh:** Gasly (Alpine), Hulkenberg (Sauber). **Eighth:** Sainz (Williams), Hamilton (Ferrari); **Ninth:** Colapinto (Williams), Antonelli (Mercedes); **Tenth:** Alonso (Aston Martin), Stroll (Aston Martin).

Sahil claims gold, silver for Parneet

ARCHERY

Sports Bureau

Sahil Jadhav won the compound men's individual gold, while Parneet Kaur picked up the women's individual silver to help India finish second with five medals, including two gold, two silver and a bronze, in archery at the World University Games in Essen, Germany, on Saturday.

Sahil edged out compatriot Kushal Dalal 148-148 (30-29, 30-29, 30-30, 29-30, 29-30, shoot-off: 10*-10; shot closer to the centre) in an all-Indian semifinal before stunning World Cup Stage team gold winning British archer Ajay Scott 149-148 (30-30, 30-29, 30-30, 30-30, 29-29) in a keenly-contested final.

Sahil, who claimed a team silver with Kushal, held his nerve to shoot perfect scores for four consecutive ends and managed to thwart Scott's challenge in a high-pressure duel.

Kushal was beaten 150-148 (30-29, 30-30, 30-30, 30-30, 30-29) by a flawless Polish archer, Przemyslaw Konecki, in the bronze medal match.

Parneet, who had secured a mixed team gold and a women's team bronze, defeated Korean Kim Sooyeon 145-144 (30-29, 28-27, 30-28, 28-30, 29-30) in the semifinals, but lost 146-147 (30-29, 30-29, 28-30, 29-30, 29-29) to another Korean, Moon Yeeyun, in a closely-fought summit clash and settled for the silver.

PGTI president Kapil upbeat about more events in season's second half

GOLF

Sports Bureau
NEW DELHI

The President of the Professional Golf Tour of India (PGTI), Kapil Dev expressed delight about being able to elevate the overall vibrancy of the sport with more events and a total prize money of ₹33 crore while unveiling the calendar for the second half of the season at the Delhi Golf Club on Saturday.

It will be a packed line up of events, starting with the ₹1 crore Coal India Open in Ahmedabad from August 3. There will be 15 tournaments, with two of the events offering a higher prize purse of ₹.2 crore in Dwarka, Delhi, and Jamshedpur.

There will also be three events for the NextGen in Patna, Lucknow and Bhubaneswar, offering ₹.20 lakh each.

The Chief Executive Officer of PGTI, Amandeep Johl, pointed out that the DP World India Championship, a $4 million dollar event scheduled at the iconic Delhi Golf Club from October 16 to 19, would alone be offering nearly 35 crore prize money.

Kapil Dev insisted that it was important to offer a better life for the players, as their career span is limited to about 15 years, with more playing opportunities leading to better earning.

"From next year we want to have events with a minimum prize money of two crore rupees," said Kapil, quite keen to "raise the bar" for golf and bring it close to cricket, a game that had seen him entertain the world.

It was pointed out that the prize money for the current season was eight crore rupees more than last year.

The Chairman of Indian Oil, A.S. Sahney was pleased to support golf, along with many other games and the Paralympics. "We are going to have the 25th edition of the Indian Oil Servo Masters in Digboi. We are told that it is the only golf tournament in Asia to have continued for this long.

"We will have a befitting celebration in November," said Sahney.

When queried about the Indian Golf Premier League (IGPL), Kapil said that creating more opportunities for the sport was welcome, but insisted that the PGTI had the responsibility of taking care of about 350 players, and "loyalty is very important".

While insisting that it was natural to "be with the system" and play four-day golf to ensure players get global ranking, Kapil visualised change at some stage, and said, "two-day golf will happen".

When probed on cricket, Kapil said that he was surprised with the way Jasprit Bumrah had delivered for the national team so well, despite having such a difficult action that took so much toll on his body.

Xavi Hernandez and Pep Guardiola's applications were not genuine: AIFF

A day after its top official claimed that World Cup-winning Spanish great Xavi Hernandez was among the applicants for India football coach's position, the All India Football Federation said that the e-mail received in his name was found to be "not genuine" and three others have been short-listed for the job.

The AIFF did not reveal the names in the pruned list but it is widely believed that Khalid Jamil, currently the head coach of Indian Super League side Jamshedpur FC, is the front-runner for the post left vacant by Spaniard Manolo Marquez.

"The AIFF received an e-mail furnishing the applications from Spanish coaches Pep Guardiola and Xavi Hernandez. The authenticity of their applications could not be confirmed, and it has since emerged that the e-mail applications were not genuine," AIFF stated in a media release.

One of its officials, on conditions of anonymity, had stated on Friday that the application of Xavi could not be processed as the AIFF did not have resources to hire his services.

The IM Vijayan-headed Technical Committee, it is learnt, has also kept Englishman Stephen Constantine, who has previously coached India, and Slovakia's Stefan Tarkovic in the short-list.

Constantine has coached the Indian team in two phases earlier, while Tarkovic is the most decorated among the shortlisted candidates having managed Slovakia during the 2020 Euro Championship.

"Following comprehensive discussions and a rigorous selection process, 10 candidates were selected for the committee to review, following which, the TC shortlisted three," the release also stated.

"Given the immediate needs of the national team, it is advisable to recommend three coaches from the short-listed pool for final consideration," former India skipper Vijayan was quoted as saying in the release. "Other prominent applicants, many of whom are highly qualified international coaches, will be taken into account for long-term strategic roles in the future," he added.

Women's kabaddi World Cup postponed indefinitely

Anirudh Velamuri
HYDERABAD

The second women's kabaddi World Cup, scheduled from August 3 to 10 at the Gachibowli Indoor Stadium here, has been indefinitely postponed.

Second time

This is the second time the event has been rescheduled after it was originally slated to be held in Bihar in June.

The Amateur Kabaddi Federation of India (AKFI), in a letter to the International Kabaddi Federation (IKF) which *The Hindu* has seen, stated that the decision was made due to the "non-timely submissions of team contingent administrative details", which caused an issue in "obtaining clearances from the concerned Ministries".

AKFI added it will not accept any changes to the existing list of participating countries, stating it would "derail the administrative process for timely clearances".

Participating countries

Argentina, Bangladesh, Chinese Taipei, Germany, Netherlands, Iran, Japan, Kenya, Nepal, Thailand, Uganda, Zanzibar, Poland and India are the 14 countries taking part in the event.

According to various sources, the tournament will now take place here following the conclusion of the Pro Kabaddi League, which gets underway in Visakhapatnam on August 29.
